“We lost, all of us. We lost friends. We lost family. We lost part of ourselves. This is the fight of our lives.”
—Steve Rogers/Captain America

From Marvel Studios comes the most highly anticipated film ever in the Marvel Cinematic Universe—“Avengers: Endgame,” the 22nd Marvel Studios film to date and the climactic conclusion to the cataclysmic events that unfolded in the top-grossing film of 2018, “Avengers: Infinity War.”

The Avengers franchise has had an unprecedented cinematic journey, spanning several galaxies over the Marvel Cinematic Universe’s 11 years. Now the newest entry, “Avengers: Endgame,” brings to the big screen the highest stakes and deadliest showdown ever between the Avengers and the universe’s most powerful and deadliest villain, Thanos.

“Avengers: Endgame” picks up with the Avengers having been soundly defeated by Thanos, who, after collecting the six Infinity Stones, imposed his twisted will on all of humanity and randomly wiped out half of the world’s population, including many of the Avengers. In the aftermath of the destruction, the remaining Avengers are faced with their biggest challenge yet—finding the resolve within themselves to get off the mat and find a way to defeat Thanos once and for all.

Marvel Studios’ “Avengers: Endgame” is the most anticipated superhero film of all time and stars Robert Downey Jr. as Iron Man, Chris Evans as Captain America, Mark Ruffalo as Bruce Banner, Chris Hemsworth as Thor, Scarlett Johansson as Black Widow, Jeremy Renner as Hawkeye, Brie Larson as Captain Marvel, Paul Rudd as Ant-Man, Don Cheadle as War Machine, Karen Gillan as Nebula, Danai Gurira as Okoye and Bradley Cooper as Rocket.

Gwyneth Paltrow also returns as Pepper Potts, along with Jon Favreau as Happy Hogan, Benedict Wong as Wong and Tessa Thompson as Valkyrie. Josh Brolin also returns as the film’s infamous villain, Thanos.

Marvel Studios’ “Avengers: Endgame” is directed by Emmy Award®–winning directors Anthony and Joe Russo from an original screenplay by Christopher Markus & Stephen McFeely. Kevin Feige is producing the film, with Louis D’Esposito, Victoria Alonso, Michael Grillo, Trinh Tran, Jon Favreau, James Gunn and Stan Lee serving as executive producers.

THE MARVEL CINEMATIC UNIVERSE: RECORD-BREAKING SUCCESS

On May 2, 2008, the Marvel Cinematic Universe began with the release of “Iron Man.” The film was a worldwide blockbuster hit with fans and critics and would serve for years as the cornerstone from which Marvel Studios would build an empire that has since produced many of the top-grossing films of all time.

In the 11 years since the film’s release, Marvel Studios has opened six films that have each grossed over $1 billion, with a collective total of over $19 billion for all 21 films at the worldwide box office. Marvel Cinematic Universe films have also achieved critical success throughout the years, and in 2019 Marvel Studios garnered Academy Award® nominations for “Avengers: Infinity War” and “Black Panther,” which became the first superhero film to be nominated in the best picture category and won three Academy Awards for best costume design, best production design and best original music score.

In late April of 2018, “Avengers: Infinity War” set the box office on fire by breaking the record for the biggest opening weekend of all time at $620 million. The film was beloved by critics and fans alike and went on to set many box-office records, including the highest grossing superhero film of all time, on its way to becoming the fourth-highest grossing film of all time at over $2.048 billion. The film’s end-tag scene set the table for launching the MCU’s first female Super Hero franchise, “Captain Marvel,” in March of 2019. The film opened #1 around the world, grossing $455 million worldwide in its opening weekend and is on its way to becoming the 7th Marvel film to gross over $1 billion at the worldwide box office.
In February of 2018, Marvel Studios’ “Black Panther” became a massive cultural phenomenon as well as a financial success, recording the fifth-biggest opening weekend of all time with $202 million. The film has grossed over $1.2 billion worldwide at the box office.

For Marvel Studios co-president and executive producer Louis D’Esposito, part of the continued success of the MCU has been its fluidity and ability to shift with the changes in the cultural zeitgeist, and to have its films populated with characters and stories that are congruent with the diversity and inclusive nature of the real world we live in.

“At Marvel, we’ve always tried our best to have characters in our films that all of the general movie audience can identify with and relate to,” says Louis D’Esposito. “We have had strong female characters in our films, starting with Black Widow on the big screen in ‘Iron Man 2,’ and ‘Agent Carter’ was our first Super Hero television show that featured a female lead character. In ‘Ant-Man and The Wasp’ we had the shared title, and now with the overwhelming box-office success of ‘Captain Marvel,’ it once and for all debunks the misconception that a female lead in a superhero film is not as financially viable.”

D’Esposito continues, “If we can tell interesting stories with women, men, people of color, all races, all creeds and religions, we’re going to. The world is diverse, and we strive to make films that portray society as it is in real life. People enjoy coming to movies like that. We proved that with ‘Black Panther.’ It gives us great satisfaction to break through those barriers, and there’s no more ceiling above us. We have shattered through it, and we’re excited to explore Super Heroes from all different backgrounds in the future. With ‘Infinity War’ and ‘Endgame,’ you really get to see what a diverse and broad swath of characters populates the Marvel Cinematic Universe. There is something for everyone, and it’s all connected together in a way that feels authentic and real.”

“As with everything at Marvel Studios, the road map and the guide points are there in publishing,” adds Kevin Feige. “There’s a reason Marvel Publishing is celebrating their eightieth anniversary, because the stories evolve and the stories change. And the characters within those stories change and evolve masterfully through the decades.”

Wrapping up, Feige explains what he has enjoyed the most in guiding the films and overall vision and direction of the MCU since he joined Marvel in 2000. “It’s been my dream job. I feel like it’s only been a short period of time and not almost twenty years, because it’s so much fun to bring these characters to life and try to do justice to Stan Lee and Steve Ditko and Jack Kirby and all the artists and writers who have created these characters.

“But ultimately it comes down to the people, the team we have at Marvel Studios, the cast that’s assembled, the filmmakers and production crew that we’ve worked with; that’s what makes it the most fun. There is no doubt that there is a certain amount of pressure with films of this size, but it comes down to being able to work with great people, with the shared goal of providing something unique to an audience and surpassing the very high expectations of that audience,” Feige concludes.

**THE DIRECTORS: LEADING THE WAY**

Two of the most successful and respected directors over the last decade, Anthony and Joe Russo return to helm their fourth Marvel Cinematic Universe film and second “Avengers” film in the franchise. The directors’ first Marvel Studios’ film, “Captain America: The Winter Soldier,” was a seminal moment in the MCU. The film’s ’70s political-thriller style and visceral action redefined Steve Rogers, and to the delight of fans and critics alike,
brought the franchise into the modern world, forever altering the direction and tone of the MCU.

With their continued record-breaking commercial success and critical acclaim for “Captain America: Civil War” and “Avengers: Infinity War,” filmmakers and cast explain why the Russo brothers have become the gold standard when it comes to story-driven blockbuster films—films with deeply layered characters, heart, emotion and humor mixed with breathtaking action, scope and scale that keep audiences on the edge of their seats.

“Anthony and Joe Russo are true visionaries,” says Kevin Feige. “They are bold filmmakers who have immaculate taste and are not afraid to push the boundaries of what an audience is expecting from films like this. You saw it in ‘Civil War.’ You saw it in ‘The Winter Soldier,’ certainly in ‘Infinity War,’ and now with ‘Endgame,’ which I believe is their master work.”

Continuing, he adds, “They’re artistic storytellers who understand how to fulfill and subvert audience expectations in ways that are exceedingly risky. They had the foresight and vision to end ‘Infinity War’ with the heroes losing in such a way that it captured the global imagination and incited a cultural event.”

“I’ve had the privilege to work with Joe and Anthony since ‘Captain America: The Winter Soldier,’ and I was able to continue along with them on ‘Civil War,’” says executive producer Trinh Tran. “They were born to direct these two ‘Avengers’ films as they love these characters and know them inside out. They’re so passionate about what they do and truly love the MCU, and it shows on the big screen. ‘Endgame’ is the biggest film that Marvel Studios has ever made with a mind-blowing scope and size, but the Russo brothers are able to really understand all the characters at a deep level and infuse the film with emotion, heart, humor and masterful storytelling. They are the best at their craft and are supremely talented and deft at integrating all of these characters and arcs together into a seamless and cohesive story.”

For the cast of the film, working with the Russo brothers was a positive collaborative experience. Chris Evans says, “Anthony and Joe Russo are such true cinephiles and really know so much about movies. Their directing style is really connected to that knowledge because they can reference other things in a way that I’ve not seen other directors do.

“Right away you can understand what they’re looking to convey with the scene. They’re also incredibly personable guys, and their attitude breeds this sort of lightness on set, which makes everyone feel like it’s an open and collaborative team environment,” concludes Evans.

“They are so invested in these characters, and I don’t know how it’s possible that they have the mental capacity to manage and track the arcs of so many characters,” says Karen Gillan, who plays Nebula, the role she originated in Marvel Studios’ “Guardians of the Galaxy.” “They’re just so collaborative about story and are so ready to dive into that because they cherish those character moments. There are so many of those in this film because the Russos give the space and invest the time to create them with the actors.”

For directors Anthony and Joe Russo, working with producer Kevin Feige has been an invaluable opportunity and experience. “Kevin is brilliant. He’s a singularly historic producer and a maverick who, through sheer force of
will, reinvented storytelling on a global scale,” says Joe Russo. “He’s created, designed and overseen every atom of the most successful slate in movie history. With ‘Endgame,’ he brings to close the first phase of his critically acclaimed narrative experiment that has spanned more than a decade.”

‘INFINITY WAR’: THE BEGINNING OF THE END

Audiences around the world embraced the culmination of 10 years of filmmaking, propelling “Avengers: Infinity War” to the largest worldwide opening of all time. For screenwriter Stephen McFeely, the box-office records the film broke were a great validation for the many years of hard work in the Marvel Cinematic Universe.

“It was one of the highlights of my career and was a big win,” says McFeely. “I got choked up and really emotional for a minute and then danced around my bedroom. That weekend we went out to different theaters and watched it with a regular audience, and I was so thrilled to hear people quoting lines from the movie as we were walking out of the theater. It was also such a surreal experience to see the film become part of the cultural zeitgeist as everyone was talking about it and the ending.”

About that ending...

The Russo brothers went the unconventional route with an ending to “Avengers: Infinity War” that was a true water-cooler moment. Executive producer Louis D’Esposito explains: “In this genre, how often does the villain win in such a resounding way that you lose approximately half of your Super Heroes and half of the living creatures in the universe? We weren’t quite sure, and we thought audiences might revolt on us. It really was a mixed bag, because some people hated and loved it at the same time. But regardless of how they felt, the common denominator through it all was that everyone was really moved emotionally by it. We went in a completely different direction. The villain wins. The heroes lose. And now, what happens?”

“Somebody told me a story at the premiere of ‘Infinity War’ about their guest crying at the end of the film, and at first they felt like, ‘Why are they embarrassing me?’ And then the person looked around, and everybody was crying,” adds Kevin Feige. “I know as a film fan myself, there’s a sense when you get emotionally involved that you appreciate the fact that you’ve been sucked into this storyline. I also heard stories that people had to point out to their kids or friends who were very upset about the ending that they’ve already announced another movie. It’s been a journey for our fans and for people who enjoy going to the movies. The reaction was indicative of how emotionally connected the world has gotten to these characters, and that is the highest compliment you can receive.”

For the filmmakers, choosing which characters would face their demise was not an easy task, as executive producer Trinh Tran explains. “We knew we had to be meticulous about who we chose to be blipped out,” informs Tran. “It was a very conscientious choice for each of the characters and who was left standing, but it also was a little scary making those decisions on characters who have been with us for several films.”

Tran continues, “This is the first time that Marvel has ever made a movie where our villain actually wins at
the end, and it was very exciting to actually take that leap and do something different. It is bittersweet and overwhelming in the sense that this is the first time our heroes are defeated, but in a good way it was a complete change that no one saw coming. People were upset but they also embraced and enjoyed that we actually took that chance.”

For the actors in the film, seeing “Avengers: Infinity War” for the first time at the premiere was also exhilarating and set the table for what would be the most anticipated film in the Marvel Cinematic Universe.

“The last eight minutes of ‘Infinity War’ are maybe the best eight minutes in the entire history of the MCU,” exclaims Robert Downey Jr. “Seeing every character involved in different scenarios was just so much fun to watch. I was just delighted.”

“I was really blown away by how culturally powerful it was,” adds Mark Ruffalo. “I saw it with my son and a bunch of his friends in a little post-industrial town up in mid-Connecticut. I have never seen a reaction like that after a movie. People were screaming and yelling. A kid took off his shirt and jumped up on the chairs screaming ‘This is bullshit!’ People were arguing about what the ending meant. People were crying. It was profound, and I just think it’s such a great thing to be part of because it’s not often that you get to be part of something that moves the needle with fans like this.”

For Scarlett Johansson, the conclusion was just as dramatic on set for the actress and her castmates. “The devastation that was felt in the theater was just as palpable on set, which is why I think it felt the way it did,” says the actress. “When you watch it on screen, you could feel the weight and importance of it, not just the storyline, but also the importance of this chapter of all of our lives kind of culminating in a way like the film.”

For director Anthony Russo, it was a high-risk reward. “We knew that it was our big gamble in the movie and that it was a difficult ending,” says Russo. “We knew in order to keep surprising ourselves and push the characters to places that audiences wouldn’t anticipate that we had to make some bold decisions and take a leap of faith with the story. We were not certain that audiences would be able to process it. Thankfully, audiences found the value and meaning in that ending that we were hoping for. On one level, it was surprising for us, because you can never be sure that it will be received the way you would like, but on another level, it wasn’t surprising that everyone was having the same type of reaction that we were.”

The only small glimmer of hope for fans could be found in the film’s end tag, which opened the door for Captain Marvel to join the Avengers in “Avengers: Endgame” and gave audiences a very brief reprieve from their angst. “When we first started testing the film, it did not have the end-credit tag and it was really hard to digest,” says Louis D’Esposito. “It was just too much to leave the theater in silence without any glimmer of hope for the Avengers after being defeated by Thanos and the complete devastation caused by him. It also was a great way to segue into ‘Captain Marvel,’ where the tag is paid off in a really great way and sets the table for ‘Endgame.’”

‘ENDGAME’: PART OF THE JOURNEY IS THE END

While audiences regrouped and processed the fact that half of their beloved Marvel Cinematic Universe characters were gone, the filmmakers were carving out the highly anticipated next installment of the Avengers—“Avengers: Endgame.” From its inception, the filmmakers made the decision to keep the two films and stories independent of each other.

“We determined very early on that we didn’t want to make one long movie and cut it in half,” says Feige. “We
wanted to make two very different types of films with unique stories unto themselves, and that’s why we took off the ‘part one’ and ‘part two’ that we had initially announced when we dated the films. We wanted to give audiences a complete experience with both films. Some may argue that ‘Infinity War’ is a cliffhanger because you care about these characters and you know a film is coming in a year. We certainly understood that, but we didn’t look at it that way.”

Feige explains, “We looked at it as a closed story in which Thanos won, which is why the last images of that movie are not the Avengers standing defeated and Cap saying, ‘Oh, God.’ The last image of the movie is a content Thanos having gone through hell but achieving his goal. That is a complete story of Thanos’ journey.”

“Kevin Feige was really adamant that these two films should feel like two separate films in story and tone,” echoes executive producer Trinh Tran. “I think partly because not everyone really knows the comic storylines, and we don’t do the comics exactly anyway. We didn’t want to have a story and pick a halfway point to stop, so for ‘Infinity War’ and ‘Endgame’ we definitely wanted them related, but to also feel different. ‘Infinity War’ was a very fast-paced, smash-and-grab heist movie with really heightened emotions and a big, tragic ending. So, with ‘Endgame’ we wanted it to feel tonally like a different genre movie.”

While there were two distinctive beginnings and endings for the two films, one of the biggest challenges for the filmmakers was that they had to develop and shoot “Avengers: Endgame” months before “Avengers: Infinity War” would be completed and in theaters.

“Normally we complete a film and then we turn our thoughts to how to move forward having digested what that film is, which in turn really informs our movement forward,” explains Anthony Russo. “This was very, very different. We basically had to conceive both films at the same time concurrently with one another. While we always thought about them as two distinct movies, in the bigger picture they were also sort of one coherent expression in our brains. I would say that all the MCU films share an interconnection, and for us there’s continuity from ‘The Winter Soldier’ to ‘Civil War,’ which is also interconnected to ‘Infinity War.’”

He continues, “Making the two movies at once was a tall order and a complicated order. Only a seasoned team like the ones we have at Marvel and on our production allowed us to pull something like this off, because the stories are so complex and the scale of production is so large that it took a very well-tuned machine to be able to handle two films at the same time.”

For Joe Russo, flying blind in regard to how audiences would take in the film was one of the biggest hurdles in pulling off the film. “One of the biggest challenges for us was that we did not have the opportunity to feel how ‘Infinity War’ was experienced by fans before we shot 90 percent of ‘Endgame,’” says Joe Russo. “So, while it did inform some of our decisions about how we tweak the story, it was already fully formed and complete before we had that perspective. The one thing I don’t think we anticipated was how deeply it would affect people.”

He recalls, “One memory that stuck with me was in the Q&A after the first screening. The first question was from this ten-year-old boy who had tears in his eyes and asked us why we killed Spider-Man. That reaction wasn’t exclusive to ten-year-olds, so we knew the stakes for ‘Endgame’ would be like no other film in the MCU.”

The challenge of writing “Avengers: Endgame” fell into the seasoned hands of Christopher Markus and Stephen McFeely, whose long history with Marvel Studios and the Russo brothers helped them streamline the process for the script and story.

“We have been working on these two films over the past four years,” notes Kevin Feige. “Christopher Markus,
Stephen McFeely, Joe Russo, Anthony Russo and Trinh Tran were in a conference room in Atlanta discussing these films while we were filming ‘Civil War.’ It continued all the way through the year between ‘Civil War’ being released and the beginning of production for ‘Infinity War.’ That time and the creative crucible of that room is the most fun I’ve had in my time at Marvel Studios because it was really about paying off the twenty films in this unprecedented series with people who had done so much work for us. Christopher and Stephen go back to the first ‘Captain America’ film; Joe and Anthony Russo go back to the second ‘Captain America’ film. They are people who love these stories and aren’t afraid of taking risks with these stories.”

“Our years of experience in the trenches with Markus and McFeely proved invaluable,” says Anthony Russo. “We’re like a finely tuned band that’s been playing together for years, and we can just pick up new ideas and throw them back to one another really easily now. That is the key to the process of working together. We had all been steeped in these characters and in these stories for so many years now. All the history comes to fruition with ‘Endgame.’ So, all the creative work and exploration that we’ve done throughout the years on the various films that didn’t make their way into those films, still had great resonance for how we realized this story. So, we drew on a very deep well of creative thought and exploration that’s been going on since 2012.”

“Markus and McFeely have been incredible collaborators for all four of our films, and they’ve written more films than anyone else in the Marvel Cinematic Universe,” adds Joe Russo. “They have an encyclopedic knowledge of the characters. As you progress through films in the MCU, your job as directors gets bigger and bigger. There’s the adage that you have to fly at forty thousand feet to get perspective on the bigger picture, and by the time we got to ‘Endgame’ we were flying at seventy thousand feet, and you really have to have an incredible production team of collaborators that allow you to focus on the big picture. By having Markus and McFeely and the rest of the deeply talented team around us, it allows us to focus on the bigger picture and receive information from all sides of the Marvel Cinematic Universe.”

For screenwriter Stephen McFeely, the story-creating process has been a great collaboration with the Russo brothers for many years. “Joe and Anthony are just great guys,” says McFeely. “We enjoy different things about them. Joe is like the Energizer Bunny and he does not stop, and he always has another idea. Anthony is much more methodical and deliberate in a lot of his choices. In our meetings, the conversations have a similar pattern of a push from Joe on one side, and there’s a resistance from Anthony on the other side. Chris Markus and I fall into similar camps, too, where Chris is more like Anthony, and I’m a little more like Joe, but ultimately it really just comes down to the best idea wins, whoever’s that may be. We always have lots of ideas, but we always end up in the place we need to be, and it’s worked really well like that since we met in 2012.”

In finding the jumping-off point and storyline for “Avengers: Endgame,” screenwriter Christopher Markus had one ace in the hole that they used as their north star. “We had the benefit of knowing from very early on that ‘Infinity War’ was going to end with the snap and a very definitive close, which would give ‘Endgame’ a little more of its own space to develop, because it wasn’t a direct continuation of what happened. It was the aftermath. We didn’t want a straight-up two-parter, and when the story of two films evolved it began to be very clear that ‘Endgame’ was very different structurally and tonally.”

The screenwriter continues, “‘Infinity War’ was very much Thanos’ movie. It’s structured around his arc and his success at the end of the movie. In ‘Endgame’ it swings back to the Avengers, and we get more inside them and their point of view and dealing with the emotions of the aftermath. Structurally ‘Endgame’ is much more circuitous, and I don’t want to go so far as to say philosophical, but it is less driven by that looming threat from Thanos that was hanging over their heads throughout the last film, which gives it a little more room to breathe.”

With half the world’s population wiped out, Thanos has achieved his mission and done the unthinkable, but
it comes with a price for the master villain. “We wanted to give Thanos a logical argument within reason for committing mass genocide,” says Joe Russo. “But we also wanted to give it an emotional sensor. ‘Infinity War’ was structured in a way where he’s the hero of the movie, and heroes have to go through trials and tests and sacrifice to get what they want. When he has to kill Gamora, the only person in the universe he loves, to get what he wants, even though everyone knows he’s a bad guy, you can’t help but feel for that choice of having to kill his own daughter. You feel bad for him. That’s partly why he’s become a top-tier villain. It’s because he doesn’t think he’s a villain.”

In “Avengers: Endgame” the remaining Avengers who did not blip out are in complete despair and must grapple with and process their defeat. “Thanos has achieved what he wanted to achieve, which is one of the reasons why we don’t consider ‘Infinity War’ a cliffhanger,” says Kevin Feige. “The end of the movie is Thanos sitting there on a planet and looking out over a shockingly idyllic environment. He’s succeeded, and he is content with what he’s achieved. I don’t think he’s worried about the remaining Avengers or that they’re going to have much luck doing anything about it.”

“The reason why we kept specific characters at the end of ‘Infinity War’ and why they survived is because we wanted the original Avengers in this film to really cope and deal with what has happened,” adds Trinh Tran. “These are the original Avengers that have gone through the journey with us for the last ten years, and we wanted to really explore their state of mind after what Thanos did to them.”

As “Avengers: Endgame” begins, the remaining Avengers who are still on Earth find themselves back together again, trying to wrap their heads around what they are witnessing. “There’s no way for the Avengers to rationalize what happened, and it’s a situation where all of the things that made these characters worthy, their superpowers, their determination, their resolve, are all useless, and they can’t do anything about what happened,” explains Christopher Markus. “So, it is a fascinating place to pick up these characters. That’s the most truthful place to start a story and lets us explore the characters in ways that we have not seen before.”

“I think all of the remaining heroes deal with the events of the end of ‘Infinity War’ differently,” remarks Kevin Feige. “All of them are used to trauma of one kind or another, but none of them has experienced being defeated so thoroughly by a single antagonist. So, they must come together with the team they have left and decide what they can still do to be of service to the world.”

**THE CAST: TAKING THE LAST STAND**

While the remaining Avengers are at the compound regrouping, Tony Stark (Robert Downey Jr.) has his own issues on Titan to deal with and is also grappling with a vision of destruction that has been looming in the shadows for a long time.

“Tony Stark has been worried about a cataclysmic event since the first ‘Avengers’ film,” says Kevin Feige. “He was suffering through PTSD in ‘Infinity War.’ He talked about putting a suit of armor around the world in ‘Age of Ultron,’ which unfortunately is what led him down a path to the creation of Ultron. Tony Stark is a futurist. He prepares for the future. He sees what other people don’t, and
he saw something terrible happening and he couldn’t do anything to stop Thanos. It is a devastating blow to him.”

“After everything goes down, Tony is still on Titan, so for him it becomes all about whether he can get home and how,” informs Robert Downey Jr. “The last real trauma for Tony came when the portal was opened in ‘The Avengers.’ So, a defeat at the hands of Thanos, which resulted in Peter Parker turning to dust in his arms, was a real gut punch. Even though he’s not all that touchy-feely, he’s pretty crazy about this kid and he appreciates the crucible that he went through in ‘Spider-Man: Homecoming’ and ‘Infinity War.’”

Downey adds, “If somebody believes you’re a mentor or a figure to them of some projection, you kind of ultimately are, and it can be a good thing, because it can make you strive to be a better person. So for Tony, in his reaction, there is a lot of contemplation and not wanting to run the risk of trying to change a thing because he was one of the lucky ones who made it out. He is feeling that sense of obligation to somehow find a solution in the aftermath of destruction.”

“Tony Stark is the most complicated character in the Marvel Cinematic Universe,” says Joe Russo. “I think it’s because he’s the most flawed character, which to us makes him the most interesting. We like characters who are human and express their humanity through complicated choices that we have to make.”

Sharing his thoughts on filming “Avengers: Endgame,” Downey says, “Having a safe sandbox to play in is imperative, especially when you are shooting back-to-back films. For both films, I really enjoyed every moment. I think after many years of working together, we all felt how truly lucky and grateful that we were in the position we are and being able to collectively have this experience and support for the last ten-plus years.”

While Tony is in space trying to find a way back to Earth, Steve Rogers (Chris Evans) is holding down the fort at the Avengers compound and trying to wrap his head around and make sense of what has happened.

“At the beginning of this film we see a lot of broken people,” says Chris Evans. “That’s what Marvel’s great at doing. They’ve truly leveled us, not just literally, but morally and emotionally. The good thing is, it’s always easier to build people back up after they’ve been broken down, but you just have a lot of incomplete characters. Steve still has his back turned on things as a result of ‘Civil War,’ but after Thanos snaps and we lose all these people, he’s really trying to jumpstart that optimism and rediscover that loyalty to conventions bigger than himself to somehow stay afloat. Otherwise, it’s so easy to just give up, but that’s not in his nature. I think he knows that, so it’s just a matter of how, in the face of the worst possible outcome, do you still be a leader?”

Anthony Russo notes, “The one thing from when we began working with the Captain America character is that he is such a tough character. His moral code is so strong, and you have to work really hard to find his vulnerabilities. You have to beat on the character really hard to get to where he is vulnerable. So, it was great in this movie to start him from a place of real vulnerability.”

“We have a lot invested in the Captain America character;” adds Joe Russo. “We also have a lot emotionally invested in Chris as a friend and a collaborator. So, it’s a proud moment to be able to sit back and look with
perspective at the journey that the character’s gone through because, while I think Tony is one of the most complicated characters in the MCU, Captain America has had the most interesting arc. ‘The Winter Soldier’ was not only a touchstone moment for the MCU, it shifted the tone of the films and started disrupting the Marvel Cinematic Universe. So, Steve Rogers had to question his very identity and go against the country that had given him his identity. That is a really rich theme, and I think that Steve carries with him the most profound thematic.

“Steve Rogers’ journey through the MCU has been an amazing one,” adds Kevin Feige. “There was a lot of skepticism early on when we first announced we were doing a Captain America film and that it would be something for only Americans or it would be a jingoistic character. Thankfully, Chris Evans agreed to do the part and has embodied this icon in a way that has fleshed him out and made him both this noble mythological icon and this very humanistic three-dimensional character.”

Feige continues, “Captain America has some very memorable moments in ‘Infinity War,’ but ultimately took a back seat to some of the other characters. In ‘Endgame,’ he’s very much in the forefront, which was exciting for us because a lot of fans said they wished there was more Cap in the last film.”

In contrast with Steve Rogers, Thor (Chris Hemsworth) had one of the most memorable turns in “Infinity War.” “Thor had one of the best arcs in the last film compared to the others, because he had gone on a journey to Nidavellir and he gets to meet up with the Guardians for the first time, so it was really interesting to see,” says executive producer Trinh Tran. “It is one of the best moments ever when Thor lands in Wakanda with Stormbreaker, and with Groot and Rocket by his side, ready to kill Thanos. He gets his chance but fails, and it really takes its toll on him. He is devastated. He feels like he’s failed his people. He failed himself, and he failed to really save the universe when he didn’t defeat Thanos.”

For Chris Hemsworth, playing the character over the years has afforded him the opportunity to flex the range of his acting chops a bit. “‘Thor: Ragnarok’ was Thor at his wackiest, ‘Infinity War’ was Thor at his best and most heroic and ‘Endgame’ is probably Thor at his worst,” says Hemsworth. “Mentally, emotionally, physically, every aspect of Thor is broken. He is lost and uncertain. So, it is a whole new journey, and it felt like I was playing a completely different character. I felt freer than I’ve ever felt before because there were no rules at this point. It was a real opportunity to just kind of swing for the fences, and if I had been given this character two or three years earlier, I think I would’ve dropped the ball in a big way. It sort of happened at a perfect time in terms of my development as a human being and as an actor. I was able to tap into some interesting things that I hadn’t looked at before. And that was great. I loved it.”

“When we started thinking about Thor and how he would move forward into this film, we took into consideration that he has suffered tremendous loss,” explains Joe Russo. “More so than any other character, in the sense that Asgard has been destroyed and now he has to suffer the loss to Thanos. It inspired us to think about how a person like that, who has suffered two devastating losses, moves forward? He’s carrying more pain than anybody else is. And how would he process that? That tension and inner light that he still carries ends up growing throughout the film in a very rousing way and is perhaps the most entertaining part of the film for Joe and myself.”
Like Chris Hemsworth, Scarlett Johansson has been able to grow her character throughout the years, going all the way back to Black Widow’s introduction in 2010’s “Iron Man 2.” “When we shot ‘Iron Man 2,’ I didn’t know if the fans and the audience would accept my interpretation of the character,” recalls Johansson. “I knew there were many different dramatic directions that we could go, but it was just an introduction to the character as an idea, and it wasn’t until the first ‘Avengers’ that I got to really work on this characterization and develop the depth of this character’s back story in what we wanted to be her truth.”

“You can track Black Widow’s arc from ‘The Winter Soldier’ to ‘Endgame’ very easily,” says Anthony Russo. “She’s an isolated character and has a lot of trust issues. Captain America doesn’t know whether he can trust her or not, so she is not part of the family per se, because she’s never been taught to rely on anyone other than herself. She has a view of the world that is skeptical and cynical, and she says that truth is relative. As she grows over the course of these films and along the way, Steve Rogers teaches her some things and she teaches him some things, and she slowly learns to trust. And it’s in that moment in ‘The Winter Soldier’ that she starts to realize that the Avengers are her family. And in ‘Civil War’ she makes a choice to try to preserve the family and realizes that maybe she made the wrong choice and that maybe she has to let go in order for the family to not destroy itself. And in ‘Endgame’ she wants to bring it all back, because she feels like it is the strongest emotional connection that she’s ever had in her life.”

For director Joe Russo, the character has always been a stabilizing force for Steve Rogers and the team. “I think Natasha is a little bit different than your kind of average superhero in the sense that she has a different sort of moral compass than some of the other characters,” explains Joe Russo. “She understands that there’s a balance between dark and light in the world, and the sacrifice you have to make on either end in order to have a kind of balance. And that might not be a reality that some of the other characters are really willing to swallow, but I don’t think she has to have the same mindset as Steve Rogers in order to work alongside him. She just looks at the world in a different way, and she doesn’t really take things personally. She just thinks of things in a very strategic way. She’s just very pragmatic.”

For Johansson, the methodical nature of her character fit well into the structure of the film. “There’s a lot of space in this film for the characters to reflect,” says Johansson. “You see the reasoning behind the decisions that we make, and it’s just unusual in this genre to have all of these really meaningful moments given the space that they deserve while still moving the story along. It’s just a monumental feat of editing and storytelling that I think is sort of unprecedented.”

For Louis D’Esposito, the clandestine nature of the character is something he has always found interesting. “There’s always been a mystery about Black Widow because you never can tell exactly what side she’s on,” says D’Esposito.

“Scarlett’s portrayal of Black Widow has evolved so much from when we first met her in ‘Iron Man 2,’” says Feige. “What Joss was able to do with the character in ‘Avengers,’ with her internal conflict of overcoming her traumatic past that was forced upon her in the red room and working in the spy game in ways that she’s not proud of, was great. In ‘Infinity War,’ you see her standing up against bad guys much more powerful than her and not giving up, which is something that I think all the Avengers share in common. As we meet her in ‘Endgame,’ it’s about
trying to pick up the pieces and moving on when you seemingly have lost almost everything, and the effect that has on her is very much the focus of the beginning of the film.”

For Johansson, having the opportunity to revisit the characters many times over the last 10 years is very gratifying. “It’s been an incredible opportunity for me to be able to continue to come back to a character that I love so much and be part of the Marvel Cinematic Universe for the last eleven years,” says Johansson. “It’s very rare that you get the opportunity to peel back the layers of a character over an extended period of time that in many ways reflects myself and reflects my own growth and my own challenges. I really feel it’s been an incredible gift as an actor to be able to have that experience. And with this film, it really feels like we’re doing something extraordinary.”

Johansson continues, “On this film, we would often look around the set and we would get that great feeling like the original gang is back together. We did a lot of reminiscing about the beginning of the journey and all the different experiences we have all been through together. We’ve all shared so many changes in the last ten years in our careers and personally in our lives. The ‘Avengers’ films have always felt like coming home for the holidays and seeing your family again and picking up where you left off. We’re all close with one another because we have spent so much time together and gone through so much together, and that dynamic really does bleed into the films in so many ways.”

Johansson’s assessment is shared by Mark Ruffalo, who returns in the role of Bruce Banner. “What I enjoy the most about doing these films, honestly, is the people,” says Ruffalo. “An actor’s essential journey is really kind of like a vagabond. It’s transient. You’re alone. You don’t see people very often. This has been totally different than that. We made this beautiful family together. I’m actually really moved about it. We’ve all sort of grown up together and had this wonderful experience together. We’ve started families or got married or got divorced, and the whole time the common thread is coming back to this group of people who are all wildly different personalities, different backgrounds and different interests. We’re as much like the Avengers as what you see on screen because we’re as different from one another in so many ways, but together we are a beautiful single organism.”

Ruffalo explains why he has enjoyed returning to the character again and again over the years. “Part of why I became an actor is because it’s always changing and I don’t have to do the same thing over and over again,” he says. “Luckily Banner has had this crazy kind of trajectory. People grow over the course of ten years, and I think it’s cool that the character has as well.”

Ruffalo continues, “It’s also great playing a character that makes science seem cool for kids. It’s amazing the impact that these movies have had culturally. They’re the good guys, and they fight for what’s good. They use science, and they use reason and they are nerds.
It’s been great to turn young people on to the idea of science.”

“The Banner we see in ‘Infinity War’ was exciting for us and exciting for Mark to do because it is a very different Banner than we’ve seen in the other films,” says Kevin Feige. “It was interesting, because he lost twice. The Hulk loses against Thanos at the beginning of the movie, and then Banner in the Hulkbuster suit loses against Thanos at the end. It’s great to see how he handles that and rebounds and rises up from it as he moves into ‘Endgame.’”

Returning to the Avengers team after sitting out “Avengers: Infinity War” is sharpshooter Hawkeye, who has made a complete character transformation. Actor Jeremy Renner explains where we find the character at the outset of the film.

“Following the defeat to Thanos, the Avengers have had some really interesting changes and shifts,” says Renner. “For Clint, we catch up with him in this beautifully shot, big fight sequence in Tokyo, which ends with a reveal of the character. He is met by Black Widow, and it is very epic but still very intimate, subtle, painful and beautiful. And, yeah, it is just badass, too. It’s just a really cool and unique reintroduction to the character. If you’re wondering what’s been going on with Clint all this time, it explains itself pretty quickly and then kind of moves forward to the storytelling from there on out.”

“Thanos snapped his fingers and irrevocably changed the destiny of all of our characters,” says Joe Russo. “We wanted to really push the audience into an uncomfortable place and really think about what would happen to these characters when catastrophic loss of life came about. How would they respond emotionally, psychologically?”

For Renner, getting to play a completely new side of his character this deep into the franchise was a real treat. “It was really exciting, and it was something I always kind of dreamed of for a long time. There were a lot of physical challenges and there were many more emotional challenges in this one than there were in past ones. I think it’s a great way to end this kind of journey thus far for the character where he’s kind of transgressed, grown and formed relationships within the team.”

The actor continues and speaks to his character’s close relationship and long history with Black Widow. “There’s a big connection with his storyline and history with Black Widow,” says Renner. In ‘Endgame,’ it continues to deepen, which was really wonderful, because that’s kind of where their relationship started. The Hawkeye/Widow relationship is one of the most important among the Avengers for Clint. There’s a lot of humanity to Clint in general, just because he’s a boots-on-the-ground kind of guy and doesn’t have any superpowers. He just has a very strong will and a high skill set. And there’s a wonderful grounding relationship with Black Widow that finally gets expressed, and it’s really quite beautiful.”

One of the original members of the Marvel Cinematic Universe, James “Rhodey” Rhodes (Don Cheadle) has been an important part of the Avengers. Cheadle talks about how he has enjoyed how the character has evolved over the years. “As an actor, we always want to see our characters do more sometimes than we get the opportunity to do, but I think in ‘Endgame’ we really get to see a lot of the different dimensions of Rhodey,” explains Cheadle. “In this film you can see clearly through the trials and tribulations and everything that he’s been through of him
getting back on his feet literally, emotionally and physically. It really creates a nice arc in this character run, and it’s been a lot of fun.”

Another beloved MCU character throughout the years is Pepper Potts, the anchor and heart and soul for Tony Stark. Gwyneth Paltrow speaks to the character’s evolution since “Iron Man.” “Pepper and I have taken a very similar parallel journey in a lot of ways,” says Paltrow. “In the first ‘Iron Man,’ she was in a much different place in her life. She really came into her own as a leader throughout the course of the films. In some ways, I caught up to her, and in some ways, she caught up to me. I hold Pepper very close to my heart. She’s certainly the longest character that has been in my life for over ten years. I think she’s an incredible person. I really actually have a lot of love for Pepper.”

Another aspect of the character that has resonated so deeply with film audiences is the 10-year on-screen relationship between Pepper Potts and Tony Stark. “I think one of the things that’s most endearing about it is how their relationship has evolved through the films and through the years,” says Anthony Russo. “They’ve gone through an incredible journey together, both individually and as romantic partners. Seeing them grow and change over the years is the most thrilling thing for audiences to watch. It’s very rare that audiences get to see on the big screen characters go through that kind of life arc with one another. From the opportunity of meeting, to working through the complexities of their relationship, to where we’re going in ‘Endgame.’ It’s an incredible life arc that we’re tracking with these two characters.”

“Robert is my co-star, both whether we’re on set together or off,” says Paltrow. “He is so surprising, and you never know what he’s going to do. He makes the day really fun and very dynamic. He’s just incredible to work with. I was thinking back to the first ‘Iron Man’ movie where we did a lot of improvising. He did the whole thing basically on the spot. He really taught me a lot about improvisation. He’s so unique and so brilliant. And to work with him really keeps you on your toes and keeps the creative spirit alive.”

“Gwyneth is obviously a national treasure as an actress,” says Downey. “She has done her version of Pepper that is something really industrious, smart, very cool and thoughtful. I know she is the queen of e-commerce now, but she really is the best side of Tony and makes the dynamic between them so relatable and humanized.”

“They really lean upon that very special chemistry they have with one another in the way that they perform,” adds Joe Russo. “It’s a very special tool to have when you’re trying to create meaningful stories for people. Robert and Gwyneth are just amazing actors, and they have that intangible quality that pops when you see them together on film.”

When Thanos’ devastation ensues, Scott Lang (Paul Rudd) is not affected. Paul Rudd explains how Ant-Man avoided the wrath of Marvel’s most sinister villain. “In the time period of ‘Infinity War,’ Scott Lang is in the Quantum Realm,” explains Rudd. “So, when he comes out of it, he begins to learn what has happened. He’s trying to play catch-up, so he goes to seek out Natasha and Captain America to see if there is anything he can do to help.”

For the actor, his second superhero mashup film was a very smooth experience all the way around. “The way that Marvel makes their films is unlike any place I’ve ever worked or seen,” says Rudd. “They really take a concerted
effort to try and make the films inventive and emotional. The way they go about doing this is different and is a process that I have learned to trust. I feel as if I understand the machine behind it all a little bit more, and my relationship with the studio and Marvel has grown. It’s very exciting to work this way.”

Rudd adds, “The same can be said with my relationships with the other Avengers. Because when we shot ‘Civil War,’ I had already filmed ‘Ant-Man,’ but this was the first time I was around them and I was like, ‘Oh, God, there they all are.’ But in shooting ‘Endgame,’ it felt more like I was sent an invitation as opposed to having to sneak in. So, that felt good.”

While Thanos has succeeded in defeating the Avengers, it came at a steep price, as he had to kill Gamora, thus creating a deeper rift with Nebula (Karen Gillan). Explaining where the character is after the events of “Avengers: Infinity War,” Gillan says, “Nebula’s always had a very turbulent relationship with Thanos. It’s something that’s very complicated, because it’s essentially an abusive relationship with her father. It’s a mixture of absolute fury and hate and resentment but also the absolute desire to please him and get his approval. That’s a really strange mix of emotions that she is constantly dealing with, and I think she’s torn in different directions at times.”

Gillan continues, “Coming out of the last film and starting ‘Endgame,’ Nebula is not in the best place emotionally. She had just started to form a connection with her sister, which is something she had wanted her whole life. The beginning of it was finally happening, and then her sister was taken away from her by Thanos. It was her only real family, so she is feeling alone and completely lost and helpless.”

For Gillan, that character has been one of her favorites to play despite the very long hair and makeup process to transform into Nebula. “It’s incredibly satisfying to be able to explore and uncover parts of this character through multiple films and franchises,” says Gillan. “Usually you would have that kind of arc in one movie. But with Nebula, it’s just over many movies now, and that just keeps it really interesting for me as an actor, because she’s changing every time and I never feel like I’m repeating myself. It’s like we’re learning something new about her every single time. I feel like she started off as this stone-cold character. And we’re starting to learn just how vulnerable she really is and how much she yearns to have family in her life.”

For the Russo brothers, having Nebula plays a bigger role in “Endgame” seemed like a logical step in the character’s evolution. “When we dig into the characters in these films, it is myself, Anthony and Markus and McFeely sitting in a room with every character’s photo attached to a board. We literally just start talking about how they could potentially interact with what the villain wants in the film. It’s an arduous process that takes months. But when you’re dealing with characters like Nebula, a child of Thanos, it is impossible not to make her integral to the ‘A’ story or have an emotional connection to it.”
Answering the emergency page of Nick Fury, Captain Marvel (Brie Larson) appears at the Avengers compound. “At the very end of ‘Infinity War,’ after the credits, we find the tag with Maria Hill and Nick Fury, who does something he’s never done before—he looks scared and nervous when Maria Hill disappears in front of him,” says Kevin Feige. “People who know the cinematic universe and know the comics recognize it as Captain Marvel’s logo, and that’s what the Captain Marvel movie is about. We learn in the ‘Captain Marvel’ film about this amazing woman’s journey and how she got to be the most powerful character in the cinematic universe.”

For the filmmakers, the challenge was that they would have to write the story of “Avengers: Endgame” to include Captain Marvel before a single frame of “Captain Marvel” was shot. “We did something similar with Black Panther and with Spider-Man in ‘Civil War’ where we got to introduce them,” explains Stephen McFeely. “But in this case, we had to write for her and shoot that movie before they shot and released her movie. So, we had to make her fit for our movie, but also make sure that we gave them enough room to create the character and the back story they wanted in their movie.”

For Larson, meeting the Avengers was an adventure of its own. “I was prepping for ‘Captain Marvel,’ and the whole thing became clear to me once I walked on the set of ‘Avengers: Endgame,’” says Larson. “I kept finding myself looking around the room and still not believing I was in the film. It was my first day in the MCU, and I was with the Avengers. We were all doing a scene together. I thought, ‘This is like the world’s largest theatre company.’”

**MAKING ‘ENDGAME’: SETTING THE STAGE**

While there were many practical locations in the production schedule, most of the film’s production was done at Pinewood Atlanta Studios, which also served as the film’s production base.

“With the size and scope, having the entire production for both ‘Infinity War’ and ‘Endgame’ located on the same lot at Pinewood Atlanta Studios was a tremendous asset and gave us the ability to shoot one film while we were prepping the other,” says Joe Russo. “It created a fluidity for the crew and for us in respect to being able to move from stage to stage, pick up shots that we missed, or shots that we discovered we needed or wanted refined as we were editing. Having stages, editing rooms and our production offices and all of our crew under one roof is really the only way to make two movies like this back-to-back. I can’t imagine doing it any other way. It is a great facility and great partner to have.”

The first scenes for “Avengers: Endgame” were actually shot overseas in the United Kingdom during the overseas “Avengers: Infinity War” production schedule. After the production schedule on “Avengers: Infinity War” wrapped its schedule in Edinburgh, the production
headed south to shoot scenes for “Avengers: Endgame” at St. Abbs, on the southern coast of Scotland, and in Durham, England, at the Durham Cathedral.

“The Durham Cathedral is one of the more spectacular cathedrals in Europe,” says Joe Russo. “It’s stunning. We’re really fortunate to be able to shoot here because it gives the scene such an incredible scale without much CGI, because most of which you see on the screen is the actual cathedral. So, when you’re actually able to walk into a location of this scale and really grasp how you could execute and shoot it, as a director it’s invaluable, because it really makes the job a lot more specific. It lends a realism to the performances, because actors aren’t working against a green screen. It’s tactile.”

Andrew Tremlett, Dean of Durham Cathedral, offers background on the cathedral. “It took about thirty or forty years to build, so these things didn’t happen overnight,” says Tremlett. “The remarkable thing about Durham is that the main body of the cathedral, which is in the film, actually has been changed very little since it was built, as all the enormous pillars that were crafted by hand are all original. The gothic style of architecture has this dark, brooding and very luminous quality about it. It really has a very powerful feel to it the way it was lit by the production. Everyone who works here, and our children, thought it looked really cool.”

Enhancing the look of the cathedral was production designer Charles Wood, who built walls and structures within the cathedral to complete the look of the set. “It takes someone as talented as Charles Wood, who could look at a space like this and figure out what we can use and what we can’t,” says Anthony Russo. “He figured out what architectural details to cover up that sort of aren’t truthful to the mythology and what to put on top of the existing structure. It’s a very complex process.”

“Walking into the cathedral and trying to figure out how it would actually play for what we needed in the film was a bit daunting,” says Wood. “The thing about Durham, which is unusual as a cathedral, is that it has a more monastic feeling than it does an ecclesiastical feeling. So, what we tried to do is separate out the areas where we could do set extensions.”

Wood continues, “The walls of the cathedral have very sophisticated finishes, and we spent a lot of time looking at it all and making sure that what we did was seamless, because in a space like this with this much history in it, if it doesn’t work, the enhancements would really look obvious. We simply just wanted to come up with an environment which was meaningful that had a palette that was very soft as well, and the colors chosen adhered to that. We were not trying to load and heighten this place up at all. In fact, we were trying to sort of calm it down a bit and give it a nice presence. I think it’s one of the finest cathedrals in the world, and it was a real privilege to be able to work in a place like this.”

Wood’s work on the set was so detailed that people associated with the cathedral could not tell what was real and original and what was not. Wood and his team took actual molds from the surface stones, then they went to the local stonemason’s yard to see the technique the masons use to do necessary restorations. So, when they built the set there was a texture to the moldings that blended perfectly.

“Charles Wood, our production designer, has been more valuable on this production in terms of storytelling and scale than anyone else,” says Joe Russo. “He’s done a spectacular job of bringing many different locations, styles, tones and universes together and blending them into a cohesive whole. I think creating a look that hasn’t been seen much on film before in terms of the sprawl and the amount of locations and the uniqueness of the locations. It’s fantastic. It’s really brilliant.”

Another practical location production designer Charles Wood and his team would transform was turning a
downtown street into Tokyo for the dramatic return of Hawkeye. “Hawkeye, in his Ronin disguise, is wreaking havoc in Japan under the guise of keeping order,” explains Stephen McFeely.

“It’s an aggressive sequence, which I like, because I think it’s going to grab the audience,” adds Joe Russo. “How intense it was wasn’t clear until we started shooting, and that really surprised me the most, but I think it really represents the pain that Clint feels.”

Adding to the intensity of the scene was Hawkeye’s new look, which enhanced his darker side. Costume designer Judianna Makovsky describes the look and evolution. “The Ronin costume is definitely out of the comics,” says Makovsky. “I worked very closely with Ryan Meinerding to keep that Ronin feeling. However, the Ronin costume originally was not user-friendly, so it went through many variations. But the concept of it never changed because it is such a specific image that we wanted to keep it.”

Makovsky adds, “Of all the characters in the film, Hawkeye has the biggest change in personality, and his costume reflects that. It becomes a whole new simpler costume underneath and has that sort of ninja feel. He comes out of nowhere and fights, so it had to be very comfortable, which was not easy. The construction of the costume by my team was brilliant.”

“I’m in awe of Judianna,” says Anthony Russo. “She is as talented and capable as anybody Joe and I have ever encountered in our entire careers. These costumes are extremely hard to design and construct. She finds ways to bring balance in terms of how fantastical the costumes feel and yet makes them feel like they actually could be in the real world. That’s a balance that Joe and I really appreciate and strive for in these films. It’s an incredibly fun and energizing process that we go through leading to the design of the costumes.”

Further adding to the energy of Ronin’s introduction is the look and feel of a post-apocalyptic Japan created by Charles Wood and his team. Director Joe Russo was in awe of it the first time he walked onto the set. “Charles Wood really outdid himself with the design of the set, which also amplified the intensity of the scene,” says Joe Russo. “It’s the level of detail. It’s not just Tokyo. It’s Tokyo after a major cataclysm has happened on Earth. It’s a very unique expression of Tokyo. It’s grounded in reality but also goes off into the realm of fantasy as well, and Charles and his team just brought those elements together so well.”

Another element that heightened the sequence was the casting of Hiroyuki Sanada, who brought his years of martial-arts experience to the table. “It was so incredibly important to have someone in the sequence who was as accomplished with a sword as Hiro,” says Joe Russo. “You can’t tell the story in one single shot unless you have an actor of his acumen who can actually keep up with one of the best stunt players in the world take after take. We did ten takes with Hiro fighting in the street for well over a minute with a lot of choreography, in the rain in the middle of the night. And he kept getting better and better with every take.”

“Joe and I are very performer-orientated,” says Anthony Russo. “So while we love action, and we spend a lot of time on our own conceiving and detailing the action and emotion, we also maximize the gifts that each specific performer has brought to the table. It’s our job to pull the best out of every actor, whether that be emotion or action. And when we hit the set, we look for how we can use those gifts to tell the story, to heighten the conflict
and thrill audiences. That’s a big part of the process that you execute a scene in these films.”

Coordinating the riveting action and battles on “Avengers: Endgame” was no small task with the stakes as high as they are in the story. The responsibility fell into the capable hands of stunt coordinator Monique Ganderton, who was promoted from assistant stunt coordinator on “Avengers: Infinity War” when longtime MCU staple Sam Hargrave took on the challenge of directing the film’s second-unit action and fight sequences.

For Ganderton, the reaction of her fellow crew members left her feeling inspired. “On set, both men and women would come up to me and express that they were happy to see a woman doing this job. It made me feel proud to be there and potentially pave the way for other women. It also was great when both women on the crew would say that they thought it was great and maybe one day their daughter will do that. But I don’t think about me being a woman stunt coordinator, because I’m just doing my job.”

“Our relationship with Monique has developed over several movies,” says Anthony Russo. “This is how you really get to know and trust creative collaborators. Over time, you start to feel a symmetry in your sensibilities in terms of how you like to work and what you’re trying to achieve on a creative level. We had that depth of experience with Monique, and she is a very good stunt coordinator, which is a very difficult position because you have to balance a lot of different concerns.”

Elaborating, he adds, “You have to take what the director is looking for and figure out how you coordinate that with what stunt performers are capable of. That’s a very difficult balance, because sometimes we tend to dream up things that aren’t achievable in the way that we wanted to originally execute them. Monique has the great ability to be very calm and focused and figure out how to realize these ideas.”

**FLASHBACK TO THE START: IRON MAN & ROBERT DOWNEY JR.**

The Marvel Cinematic Universe has expanded in scope and size to include nine current franchises, which will hit twelve in 2020, but it all can be traced back to its origin with “Iron Man” and its dynamic star, Robert Downey Jr.

“We take a lot of pride with casting our films, and Robert Downey Jr. was probably the most important casting decision we’ve ever made,” says executive producer Louis D’Esposito. “Not only is he a brilliant actor, but he told the world that we are serious about who we hire to play these iconic roles. His success in the role allowed for all of the other great actors to come into our universe knowing that if Robert Downey Jr. is doing this, they could do it, too.”

“There are no two ways about it: if there were no Robert Downey Jr., there would be no MCU,” states Kevin Feige. “That is fact. Robert breathed life into the studio, helped found the studio with Jon Favreau in the tonality of ‘Iron Man’ and what he brought to the character. He had a belief as he was fighting to get the role that he could add something, not just to the film but to how big we could go in the universe, which at that point was only a pipe dream. He really saw the bigger picture and what he could bring to cinema and audiences in terms of surpassing and subverting the expectations for what a hero can be. Forevermore, everybody stepping
into an iconic role will be in the shadow of what RDJ was able to do with Tony Stark.”

Downey’s co-stars speak to what makes the actor the unequivocal “godfather” of the MCU. “It’s not hard to have a great dynamic on and off screen with Robert Downey Jr.,” says Chris Evans. “He’s a very affable guy, and I think he really understood the weight of the responsibility with these films. He understood that when one person succeeds, we all succeed. So, he really went out of his way to help us find our footing, not just in the ‘Avengers’ films but in our own individual franchise as well. Even when he wasn’t on set, I still felt his support. During my first ‘Captain America’ film, that was really critical for me. I would have struggled quite a bit without his support on that film. When you meet him, he’s just got a real energy about him.”

The actor continues, “There’s a real gravity that he brings. As a result, in the early days, he really took a lot of people like myself and Chris Hemsworth—who had done things before, but nothing of this scale—and he put everyone on his back and made sure we were all swimming in the same direction. And before you knew it, it was just like a crew team with everyone rowing in rhythm, and we were off to the races.”

Robert Downey Jr., reflecting on what he has enjoyed over the last 11 years playing the iconic Tony Stark character, says, “I really treasure all of the memories of my co-workers, and all the moments and days we’ve shared on and off set during production,” says Downey. “I still remember Tony landing in the high desert in the eastern Sierras when he escapes the cave. I was buried up to my neck in sand in the midst of a massive sandstorm coming in. We only had a couple minutes to get this take, and it was like God’s grace just came in and gave us the take that was in the movie.”

He adds, “Stan Lee’s iteration of Tony Stark, which was rooted in my generation, that Vietnam kind of anti-establishment, but also hearkening to the kind of Howard Hughes, eccentric-billionaire thing, was just so cool.”

As a final thought, Downey adds, “My own values have affected and been affected by the content of these films. I’ve attempted to infuse them with a sense of my own process. And we’re talking about a decade. Life is fleeting, and a decade really sometimes feels like a lifetime.”

‘ENDGAME’: THE END IS A NEW BEGINNING

For the cast and filmmakers, being part of the process of making “Avengers: Endgame” was a great journey they
shared together, and they are all excited for fans to see the film. Robert Downey Jr. expresses the sentiment best when he says, “I’m really looking forward to seeing how people lose their marbles over this, because it is the only film I’ve ever participated in where I guarantee there is no way anyone could guess what’s going to happen.”

He adds, “The reason I love movies is because I love being taken on an unexpected journey. I love being surprised, thrilled and delighted and maybe sometimes being taught just a little something about myself. I feel confident that this film will deliver all of that and more for audiences.”

Executive producer Trinh Tran chimes in, “When Tony utters the words, ‘It’s all been leading to this,’ it is true. This is the big, epic showdown of all showdowns, and audiences are going to experience the full gambit of emotions as this film checks all the boxes.”

“At the end of the day, all meaningful storytelling has to include stakes,” concludes Joe Russo. “‘Avengers: Endgame’ is the final chapter in an unprecedented narrative mosaic spanning eleven years and nine franchises. Audiences should prepare themselves for an exciting, powerful and emotional conclusion to the most successful run of films in cinematic history.”

“Avengers: Endgame” marks the end of an exciting, emotional, action-filled journey, but what lies ahead for fans of the Marvel Cinematic Universe?

Producer Kevin Feige offers, “We have just closed the first decade at Marvel Studios, and we want to follow that example by not just evolving and growing the characters we’ve already introduced but bringing new heroes to the screen and new types of heroes to the screen and providing a level of representation that people haven’t seen up to this point. We’ve already seen it in all of our films, but in terms of title characters with ‘Black Panther’ and most recently with ‘Captain Marvel.’ And that’s going to continue through and past ‘Avengers: Endgame,’ so that the films are a mirror of the world and the types of heroes around the globe.”

**ABOUT THE CAST**

**ROBERT DOWNEY JR. (Tony Stark/Iron Man)** is a two-time Academy Award® nominee who earned his most recent Oscar® nomination for best supporting actor for his work in Ben Stiller’s comedy hit “Tropic Thunder.” His performance as Kirk Lazarus, a white Australian actor playing a black American character, also brought him Golden Globe®, BAFTA and Screen Actors Guild® (SAG) award nominations. Downey was honored with his first Oscar nomination in the category of best actor for his portrayal of Charlie Chaplin in Richard Attenborough’s acclaimed biopic “Chaplin,” for which he also won BAFTA and London Film Critics’ Circle awards and received a Golden Globe Award nomination.

In summer 2008, Downey received praise from critics and audiences for his performance in the title role of the blockbuster hit “Iron Man,” under the direction of Jon Favreau. Bringing the Marvel Comics Super Hero to the big screen, “Iron Man” earned more than $585 million worldwide, making it one of the year’s biggest hits.

Downey reprised his role in the successful sequel, which was released in May 2010. He returned to the role in Joss Whedon’s “Marvel’s The Avengers,” released in May 2012, which was the highest-grossing film during its theatrical run and remains the sixth-highest-grossing film of all time, grossing over $1.5 billion at the worldwide box office. Downey also starred in the third installment of the Iron Man franchise, “Iron Man 3,” directed by Shane Black, which was the third-highest-grossing film that year, as well as the 2015 summer blockbuster “Avengers: Age of Ultron.” He went on to star in the worldwide success “Captain America: Civil War,” which became the highest-grossing film of 2016. Downey followed that with “Spider-Man: Homecoming,” which was released on July 7, 2017.

Last year, Downey again starred as Tony Stark/Iron Man in Marvel Studios’ highly anticipated “Avengers: Infinity War,” which broke box-office records and has to date earned over $2 billion in worldwide box-office receipts.

Next up, Downey will star in Universal Pictures’ “The Voyage of Doctor Dolittle,” which he also produced under the Team Downey banner, the production company he created with his wife, Susan.

In addition to his prolific work in the Marvel Cinematic Universe, Downey was also seen in the culinary-inspired film “Chef,” directed by Jon Favreau, which won the audience award at the 2014 Tribeca Film Festival. That year, Downey also starred in and executive produced “The Judge,” featuring Robert Duvall and Billy Bob Thornton, under the Team Downey banner.

Downey’s other recent films include “Due Date,” alongside Zach Galifianakis, for director Todd Phillips; “The Soloist,” opposite Jamie Foxx, for director Joe Wright; “Zodiac,” alongside Jake Gyllenhaal, for director David Fincher; “A Scanner Darkly,” with Keanu Reeves, for director Richard Linklater; “Fur: An Imaginary Portrait of Diane Arbus,” opposite Nicole Kidman, for director Steven Shainberg; and “Kiss Kiss Bang Bang,” alongside Val Kilmer, for director Shane Black. He also shared a SAG Award® nomination as a member of the ensemble cast of George Clooney’s true-life drama “Good Night, and Good Luck,” and a special jury prize won by the ensemble cast of “A Guide to Recognizing Your Saints,” presented at the 2006 Sundance Film Festival.

Downey’s long list of film credits also includes “Gothika,” “The Singing Detective,” “Wonder Boys,” “U.S. Marshals,” “One Night Stand,” “Home for the Holidays,” “Richard III,” “Natural Born Killers,” “The Gingerbread Man,” “Short Cuts,” “Heart and Souls,” “Soapdish,” “Air America,” “Chances Are,” “True Believer,” “Less Than Zero,” “Weird Science,” “Firstborn” and “Pound,” in which he made his debut under the direction of Robert Downey Sr.

On the small screen, Downey made his primetime debut in 2000, when he joined the cast of the series “Ally McBeal.” For his work on the show, he won a Golden Globe® Award for best supporting actor in a series, miniseries or motion picture made for television and a Screen Actors Guild Award® for outstanding actor in a comedy series. In addition, Downey was nominated for an Emmy® Award for outstanding supporting actor in a comedy series.

**CHRIS EVANS (Steve Rogers/Captain America) has emerged as one of Hollywood’s most in-demand actors for both big-budget and independent features, and has proven himself as a director as well.**

Last year, Evans reprised his Captain America role in Marvel Studios’ “Avengers: Infinity War,” which toppled box-
office records and has made over $2 billion at box offices worldwide.

In April 2017, Evans starred in Marc Webb’s “Gifted” alongside McKenna Grace, Octavia Spencer and Jenny Slate. He will next be seen in “Knives Out,” a murder mystery directed by Rian Johnson, and Gideon Raff’s “The Red Sea Diving Resort” as Ari, a charming Israeli agent who assembles a team to help with the rescue and transport of Ethiopian Jews to Israel in 1981.

In 2016, Evans starred in Marvel Studios’ “Captain America: Civil War,” the highly anticipated follow-up to 2011’s “Captain America: The First Avenger” and 2014’s “Captain America: The Winter Soldier.” Evans reprised his role as the famed Marvel Comics character Steve Rogers. “Captain America: Civil War” was the top-grossing film of 2016 with more than $1.1 billion worldwide.

Evans marked his feature film directorial debut with “Before We Go.” He also produced and starred in the film alongside Alice Eve and Mark Kassen. The film premiered at the 2014 Toronto International Film Festival and was released by Radius in September 2015. Prior to its release, the film garnered $1.53 million in VOD and was the first pre-theatrical film of 2015 to reach both the top 5 on iTunes and the top 10 on Rentrak’s weekly digital chart.

In 2015, Evans starred in Marvel Studios’ “Avengers: Age of Ultron,” opposite Robert Downey Jr., Samuel L. Jackson, Scarlett Johansson, Mark Ruffalo and Chris Hemsworth, and was also seen in the box-office hit “Marvel’s The Avengers” in 2012, which was the first film to feature the Avengers. In 2014, Evans starred in Bong Joon-ho’s “Snowpiercer,” opposite Octavia Spencer, Tilda Swinton, John Hurt and Ed Harris.

His other film credits include Ariel Vromen’s drama “The Iceman,” opposite Michael Shannon; Mark Mylod’s comedy “What’s Your Number?,” opposite Anna Faris; Edgar Wright’s action comedy “Scott Pilgrim vs. the World,” opposite Michael Cera; Sylvain White’s “The Losers,” with Jeffrey Dean Morgan and Zoe Saldana; “Push,” opposite Dakota Fanning; “Street Kings,” with Keanu Reeves and Forest Whitaker; “Fantastic 4: Rise of the Silver Surfer,” opposite Jessica Alba, Michael Chiklis and Ioan Gruffudd; and Danny Boyle’s critically acclaimed “Sunshine.” Additional credits include “The Loss of a Teardrop Diamond,” “Cellular,” “The Perfect Score,” “Fierce People,” “Puncture” and the romantic drama “London.” Evans’ first cinematic role was in the 2001 hit comedic spoof “Not Another Teen Movie.”

Raised in Massachusetts, Evans began his acting career in theatre before moving to New York, where he studied at the Lee Strasberg Institute. Evans was recently the face of the Gucci fragrance Guilty. Philanthropies he regularly lends his time to include Boston Children’s Hospital, Make-A-Wish and Concord Youth Theatre.

CHRIS HEMSWORTH (Thor) has become one of the most popular and sought-after actors in Hollywood. In 2012, he starred as Thor in the sixth-highest-grossing film of all time, “Marvel’s The Avengers.” In 2015, Hemsworth starred in the second installment of Marvel Studios’ global juggernaut “The Avengers” franchise, “Avengers: Age of Ultron,” and last year he reprised Thor for Marvel Studios’ blockbuster “Avengers: Infinity War,” which holds the No. 4 spot on the highest-grossing-films-of-all-time chart.

In June, Hemsworth will star in F. Gary Gray’s “Men in Black: International,” in which he plays Agent H, opposite Liam Neeson and Emma Thompson.

Recently, Hemsworth starred in the thriller “Bad Times at the El Royale,” with Jeff Bridges. He also recently starred alongside Michael Shannon, Michael Peña, William Fichtner and Trevante Rhodes in Nicolai Fuglsig’s “12 Strong,” which tells the story of the first Special Forces team deployed to Afghanistan after 9/11.

In 2012, he starred in the action adventure “Snow White and the Huntsman,” which opened at No. 1 at the box office. In 2016, Hemsworth starred in the title role of the prequel, “The Huntsman: Winter’s War.”

Born and raised in Australia, where he started his acting career, Hemsworth made his U.S. feature film debut in J.J. Abrams’ blockbuster “Star Trek,” playing the pivotal role of George Kirk. His additional film credits include Paul Feig’s comedy “Ghostbusters,” alongside Melissa McCarthy, Kristen Wiig, Kate McKinnon and Leslie Jones; the comedy “Vacation,” with Ed Helms, Christina Applegate and Leslie Mann; and in Ron Howard’s “In the Heart of the Sea.” He had previously collaborated with Howard on the true-life drama “Rush,” portraying famed Formula One driver James Hunt.

Among his favorite charities, Hemsworth supports the Australian Childhood Foundation.

Tony® and BAFTA winner and four-time Golden Globe® nominee SCARLETT JOHANSSON (Natasha Romanoff/ Black Widow) was most recently seen in Marvel Studios’ blockbuster “Avengers: Infinity War,” in which she reprised her role as Black Widow.

Last year, she also lent her voice to Wes Anderson’s stop-motion animated comedy “Isle of Dogs.”

In 2017, Johansson was seen alongside Kate McKinnon and Zoë Kravitz in the R-rated comedy “Rough Night” and in the lead role of the Major in “Ghost in the Shell.”

In 2016, she starred in “Captain America: Civil War;” voiced the python Kaa in Disney’s live-action/CGI-animation adaptation of “The Jungle Book” from Jon Favreau, starred in the Coen Brothers film “Hail, Caesar!,” and lent her voice to the animated musical comedy film “Sing.” Her other recent roles include Luc Besson’s action-thriller “Lucy,” Jonathan Glazer’s sci-fi art film “Under the Skin,” and Spike Jonze’s critically acclaimed sci-fi romance “Her,” where she played the role of operating system Samantha, which earned her a best actress award at the Rome Film Festival. She is currently the highest-grossing actress of all time and was the highest-grossing actor of 2016, with her films making over $1.2 billion that year and $9.3 billion overall worldwide.

Johansson received rave reviews and the Upstream Prize for best actress in the Controcorrente section at the Venice Film Festival for her starring role opposite Bill Murray in “Lost in Translation,” the critically acclaimed second film by director Sofia Coppola. She also won a Tony® for her Broadway debut in the Arthur Miller play “A View from a Bridge” opposite Liev Schreiber. She wrapped her second run on Broadway as Maggie in “Cat on a Hot Tin Roof” in 2013.

At the age of 12, Johansson attained worldwide recognition for her performance as Grace MacLean, the teen traumatized by a riding accident in Robert Redford’s “The Horse Whisperer.” She went on to star in Terry Zwigoff’s “Ghost World,” garnering a best supporting actress award from the Toronto Film Critics Circle. Johansson was also featured in the Coen Brothers’ dark drama “The Man Who Wasn’t There,” opposite Billy Bob Thornton and Frances McDormand.

Her other film credits include: Jon Favreau’s “Chef”; “Marvel’s The Avengers”; “Don Jon,” opposite Joseph Gordon-Levitt; “Hitchcock,” opposite Anthony Hopkins; “We Bought a Zoo” for Cameron Crowe; the box-office
hit “Iron Man 2”; the Weitz brothers’ film “In Good Company”; as well as opposite John Travolta in “A Love Song for Bobby Long,” which garnered her a Golden Globe® nomination (her third in two years); and Woody Allen’s “Match Point,” which garnered her fourth consecutive Golden Globe nomination in three years. Other film credits include “He’s Just Not That Into You,” “Vicky Cristina Barcelona,” “The Other Boleyn Girl,” “The Spirit,” “Girl with a Pearl Earring,” opposite Colin Firth, “The Island,” opposite Ewan McGregor, Brian DePalma’s “The Black Dahlia,” Christopher Nolan’s “The Prestige,” and “The Nanny Diaries.”

Her additional credits include Rob Reiner’s comedy “North”; the thriller “Just Cause,” with Sean Connery and Laurence Fishburne; and a breakthrough role at the age of 10 in the critically praised “Manny & Lo,” which earned her an Independent Spirit Award nomination for best female lead.

A New York native, Johansson made her professional acting debut at the age of 8 in the off-Broadway production of “Sophistry,” with Ethan Hawke, at New York’s Playwrights Horizons.

Academy Award®, Golden Globe®, BAFTA and Emmy® nominee MARK RUFFALO (Bruce Banner) is one of Hollywood’s most sought-after actors, easily moving between stage and screen. He has worked with a diverse group of talented directors, including Ang Lee, Martin Scorsese, Michael Mann, Spike Jonze, David Fincher, Fernando Meirelles and Michel Gondry.

Last year, Ruffalo reprised his role of Bruce Banner/Hulk in Marvel Studios’ blockbuster “Avengers: Infinity War.” In 2017, Ruffalo played Bruce Banner/Hulk in “Thor: Ragnarok” and starred on Broadway in Arthur Miller’s “The Price.” Ruffalo is also set to executive produce and star in “I Know This Much Is True,” an eight-episode limited series at HBO.

He has been nominated for three Academy Awards® for best supporting actor in the last few years, for Lisa Cholodenko’s “The Kids Are All Right,” Bennett Miller’s “Foxcatcher” and Thomas McCarthy’s “Spotlight,” 2015’s best picture Oscar® winner. “Spotlight” followed The Boston Globe’s coverage of the Catholic Church sex abuse scandal, for which the newspaper won the 2003 Pulitzer Prize for public service. The film won two Oscars (best picture and best original screenplay) out of six nominations at the 2016 Academy Awards. The cast of the film was awarded the Screen Actors Guild Award® for outstanding performance by a cast in a motion picture, and the film itself was nominated for a Golden Globe® Award for best motion picture – drama.

Ruffalo also received a Golden Globe® nomination in 2015 for his role in the Sony Pictures Classics film “Infinitely Polar Bear.” Earlier in 2015, Ruffalo reprised his role as Bruce Banner/The Hulk in “Avengers: Age of Ultron,” the hit sequel to “Marvel’s The Avengers.” Directed by Joss Whedon, the film reunited Ruffalo with co-stars Scarlett Johansson, Chris Hemsworth, Chris Evans and Robert Downey Jr.

In 2014, Ruffalo received Academy Award®, Golden Globe® Award, Screen Actors Guild Award® and BAFTA Award nominations for his role as the late Olympic wrestler David Schultz in Bennett Miller’s drama “Foxcatcher.” The film also received a Golden Globe nomination for best motion picture – drama. He also received a Screen Actors Guild Award, as well as Golden Globe and Emmy® nominations, for his role as gay-rights activist Ned Weeks in the HBO film “The Normal Heart,” based on the play by Larry Kramer. Directed by Ryan Murphy, the film also starred Julia Roberts and Matt Bomer and received a total of 16 Emmy nominations, including outstanding television movie. It also received a Golden Globe nomination for best miniseries or motion picture made for television.

Ruffalo earned Academy Award®, Screen Actors Guild Award®, BAFTA Award and Independent Spirit Award nominations for his performance in Focus Features’ “The Kids Are All Right,” directed by Lisa Cholodenko. Along
with that string of nominations, he was also honored with the best supporting actor award by the New York Film Critics Circle.

In 2011, Ruffalo made his directorial debut with “Sympathy for Delicious,” which starred Orlando Bloom and Laura Linney and won the special jury prize for dramatic film at the Sundance Film Festival.

Ruffalo earned critical recognition in 2000 for his role in Kenneth Lonergan’s “You Can Count on Me,” opposite Laura Linney and Matthew Broderick. The Martin Scorsese–produced film won the Grand Jury Prize for best film in dramatic competition and the Waldo Salt Screenwriting Award at the 2000 Sundance Film Festival.

Ruffalo’s acting roots lie in the theater, where he first gained attention starring in the off-Broadway production of “This Is Our Youth,” for which he won a Lucille Award for best actor. In 2017, he starred in Arthur Miller’s “The Price” on Broadway opposite Danny DeVito. In 2000, he was seen in the off-Broadway production “The Moment When,” a play by Pulitzer Prize and Tony Award® winner James Lapine. He made his theater debut in “Avenue A” at The Cast Theater.

A writer, director and producer, Ruffalo co-wrote the screenplay for the independent film “The Destiny of Marty Fine.” In 2000, he directed Timothy McNeil’s original play “Margaret” at the Hudson Backstage Theatre in Los Angeles. Ruffalo has also received Dramalogue and Theater World Awards. Ruffalo made his Tony Award®–nominated Broadway debut in the 2006 Lincoln Center Theater’s revival of Clifford Odets’ “Awake and Sing!”

Ruffalo advocates for addressing climate change and increasing renewable energy. In March 2011, he co-founded Water Defense to raise awareness about energy extraction impact on water and public health. A regular contributor to the Guardian and Huffington Post, Ruffalo has received the Global Green Millennium Award for Environmental Leadership and the Meera Gandhi Giving Back Foundation Award. He was named one of Time Magazine’s People Who Mattered in 2011 and received The Big Fish Award from Riverkeeper in 2013. Ruffalo helped launch The Solutions Project in 2012 as part of his mission to share science, business and culture that demonstrates the feasibility of renewable energy.

**JEREMY RENNER (Clint Barton/Hawkeye)** is an American actor, musician and film producer. Over the course of more than 20 years, Renner has established himself as one of Hollywood’s most versatile and respected actors.

Throughout the 2000s, he appeared largely in independent films such as “Dahmer” and “Neo Ned.” Shortly thereafter he began starring in blockbuster films, including “The Hurt Locker” (Academy Award® nomination for best actor) and “The Town” (Academy Award nomination for best supporting actor), as well as starring in “Mission: Impossible-Rogue Nation” alongside Tom Cruise, “The Bourne Legacy” and originating the role of Hawkeye in “Marvel’s The Avengers.”

Renner went on to reprise the role of Clint Barton/Hawkeye in Marvel Studios’ “Avengers: Age of Ultron” and “Captain America: Civil War.”
Recently, Renner has been on the big screen in the award-winning movie “Arrival” with Amy Adams and in the critically acclaimed picture “Wind River.” Last year he was seen in the comedy feature “Tag” and voiced Swifty in the animated feature “Arctic Justice,” set for a November release.

Renner is currently working on a music album.

BRIE LARSON (Carol Danvers/Captain Marvel) won the 2016 Academy Award®, Golden Globe®, Screen Actors Guild Award®, BAFTA, Critics’ Choice and National Board of Review awards for her breakthrough lead performance in the film “Room,” directed by Lenny Abrahamson and adapted from the best-selling book by Emma Donoghue, about a young woman and her 5-year-old son who finally gain their freedom after being held captive for years.

Most recently, Larson starred as Carol Danvers/Captain Marvel in Marvel Studios’ highly anticipated female-led Super Hero film “Captain Marvel,” which opened at No. 1 at the box office on March 8.

Next up, Larson will be seen in Cretton’s “Just Mercy,” alongside Michael B. Jordan, scheduled to be released in January 2020. She is also set to produce and star in the upcoming “Victoria Woodhull” for Amazon Studios—about the first female candidate for the presidency of the United States.

In addition to acting, Larson is a writer and director. Her feature film directorial debut, “Unicorn Store,” premiered at the 2017 Toronto International Film Festival. She also starred. A short film she wrote and directed, “The Arm,” won the special jury award for comedic storytelling at the 2012 Sundance Film Festival.

In 2013, Larson starred in “Short Term 12,” her first collaboration with director Destin Daniel Cretton. Her dramatic role as Grace, the director of a foster care facility, earned her best actress wins at the Locarno Film Festival and Gotham Awards, and a best actress nomination at the Critics’ Choice Awards. The Los Angeles Times labeled her the “It Girl” of the SXSW Film Festival, where the film first premiered.

Larson has worked with top directors and co-stars on notable films, including Judd Apatow’s “Trainwreck,” opposite writer/star Amy Schumer; Rupert Wyatt’s “The Gambler,” opposite Mark Wahlberg; James Ponsoldt’s “The Spectacular Now,” opposite Shailene Woodley and Miles Teller; Joseph Gordon-Levitt’s directorial debut, “Don Jon”; Phil Lord and Chris Miller’s “21 Jump Street” as the love interest to Jonah Hill; Oren Moverman’s “Rampart” as the defiant daughter of Woody Harrelson; Edgar Wright’s “Scott Pilgrim vs. the World”; and Noah Baumbach’s “Greenberg” as a young temptress flirting with Ben Stiller.

Larson is still widely recognized for her portrayal of Toni Collette’s sarcastic and rebellious daughter in Showtime’s breakout comedy-drama “United States of Tara,” which was created by Academy Award®—winning writer Diablo Cody and based on an original idea by Steven Spielberg.

She has appeared onstage at the prestigious Williamstown Theatre Festival in the role of Emily in “Our Town” and recurred on the FX cult favorite series “The League.” A native of Sacramento, Larson started studying drama at the early age of 6, as the youngest student ever to attend the American Conservatory Theater in San Francisco. Larson currently resides in Los Angeles.
PAUL RUDD (Scott Lang/Ant-Man) stars as Ant-Man, the role he established in Marvel Studios’ “Ant-Man” in 2015 and again in “Ant-Man and The Wasp” in 2018. “Ant-Man” also starred Michael Douglas and Evangeline Lilly and opened No. 1 at the box office. Rudd was nominated for a Critics’ Choice Award for best actor in an action movie and an MTV Movie Award for best hero on behalf of his performance in the movie. Rudd co-wrote “Ant-Man” with Adam McKay, Edgar Wright and Joe Cornish and was a writer on “Ant-Man and The Wasp” as well. Rudd was also seen as Ant-Man in Marvel Studios’ “Captain America: Civil War,” which grossed over $1 billion worldwide.

Rudd’s most recent credits include Ben Lewin’s WWII dramatic spy-thriller “The Catcher Was a Spy,” starring opposite Paul Giamatti, Guy Pearce and Mark Strong; Duncan Jones’ “Mute,” which was shot in Berlin with Alexander Skarsgård and Justin Theroux; and Andrew Fleming’s dramedy “Ideal Home,” opposite Steve Coogan.

Rudd starred opposite Will Ferrell, Steve Carell and David Koechner in Adam McKay’s “Anchorman 2: The Legend Continues,” reprising their roles from “Anchorman: The Legend of Ron Burgundy” for Paramount. “Anchorman 2” grossed over $170 million worldwide and received a People’s Choice Award nomination for favorite year-end movie, as well as four MTV Movie Award nominations.

Rudd is also well known for his roles in Judd Apatow’s “This Is 40” and “Knocked Up.” “Knocked Up” grossed over $200 million worldwide, received a People’s Choice Award for favorite movie comedy, a Critics’ Choice Award nomination for best comedy movie and was named one of AFI’s top 10 films of the year. Additionally, “This Is 40” was nominated for a 2013 Critics’ Choice Award for best comedy movie, and Rudd was nominated for best actor in a comedy.

Rudd returned to the Broadway stage in Craig Wright’s “Grace,” starring opposite Michael Shannon, Kate Arrington and Ed Asner at the Cort Theatre. “Grace” was nominated for an Outer Critics Circle Award for outstanding new Broadway play, and Rudd was nominated for a Drama League Award for distinguished performance. His other stage credits include starring opposite Julia Roberts and Bradley Cooper in Richard Greenberg’s Broadway production of “Three Days of Rain,” Neil LaBute’s “Bash” in both New York and Los Angeles, as well as LaBute’s “The Shape of Things” in London and New York. Rudd made his West End debut in the London production of Robin Phillips’ “Long Day’s Journey Into Night,” opposite Jessica Lange. Other Broadway credits include Nicholas Hytner’s “Twelfth Night” at Lincoln Center Theater with a special performance that aired on PBS’s “Great Performances,” and Alfred Uhry’s Tony Award®–winning play “The Last Night of Ballyhoo.”

On television, Rudd was the co-writer and co-creator of the critically acclaimed series “Party Down” on Starz. He also garnered wide recognition with a recurring role as Mike Hannigan on the TV sitcom “Friends.” In 2012, Rudd won a Critics’ Choice TV Award for best guest performer in a comedy for his guest-starring role on “Parks and Recreation.” In 2015, Rudd reprised his role as Andy in David Wain’s “Wet Hot American Summer” along with the original cast for an eight-episode limited Netflix series based on the cult film.
With a résumé that’s as varied and expansive as it is rich in depth of the characters he brings to life, Academy Award® nominee DON CHEADLE (James Rhodes/War Machine) is one of the most highly sought after and premier actors of his generation.

Turning in consistently powerful performances, Cheadle has not only taken on challenging roles but put his talents into producing projects he believes in as well.

Most recently Cheadle directed his first feature film, “Miles Ahead,” which he also co-wrote and produced. He also starred in the film, based on the life of legendary jazz artist Miles Davis. The film co-starred Ewan McGregor. The film, which closed the New York Film Festival in October 2015, was released in spring 2016. Cheadle received an NAACP Image Award nomination for his role, and “Miles Ahead” won the GRAMMY® Award for best compilation soundtrack for visual media in 2017.

Cheadle starred as Marty Kaan on the critically acclaimed Showtime series “House of Lies.” The series ran from 2012 to 2016 and had five tremendously successful seasons. “House of Lies” has earned multiple nominations for the series and Cheadle himself, including four Emmy® nominations, an NAACP Image Award and five additional NAACP Image Award nominations, a Golden Globe® Award and two additional Golden Globe® nominations, and a SAG Award® nomination. In addition to starring, he was also executive producer of the series and also stepped behind the camera as director.

In May 2016, Cheadle reprised his role of Lieutenant Colonel James Rhodes, from the 2010 and 2013 Marvel Studios mega-box-office-hit films “Iron Man 2” and “Iron Man 3,” in “Captain America: Civil War,” as he also did in “Avengers: Age of Ultron.” Last year, Cheadle again donned the War Machine suit for Marvel Studios’ blockbuster “Avengers: Infinity War.”

Cheadle is well known for his passionate performances on stage and screen, stemming from his breakout performance opposite Denzel Washington in “Devil in a Blue Dress,” where he was named best supporting actor by the Los Angeles Film Critics Association.

In 2014, Cheadle produced the feature “St. Vincent,” which starred Bill Murray and Naomi Watts and for which Murray received a Golden Globe® Award nomination. In 2012, Cheadle garnered critical acclaim for his role in Robert Zemeckis’ “Flight,” which premiered at the New York Film Festival and was released by Paramount Pictures. In 2011, Cheadle produced and starred in “The Guard,” which premiered at the 2011 Sundance Film Festival and was released by Sony Pictures Classics, and in 2008, he starred opposite Guy Pearce in Overture Films’ “Traitor,” an international thriller which he also produced. Cheadle was honored by both the CineVegas Film Festival and the Los Angeles Film Festival and in 2007 received the ShoWest Male Star of the Year Award.

Additional film credits include “Talk to Me”; the 2006 Oscar®–winning best picture, “Crash,” which Cheadle also produced; “Hotel Rwanda,” for which his performance garnered Academy Award®, Golden Globe®, Broadcast Film Critics Association Award and Screen Actors Guild Award® nominations for best actor; “Ocean’s Eleven,” “Ocean’s Twelve” and “Ocean’s Thirteen,” directed by Steven Soderbergh; Mike Binder’s “Reign Over Me” with Adam Sandler; the Academy Award–winning film “Traffic” and “Out of Sight,” both also directed by Soderbergh; Paul Thomas Anderson’s critically acclaimed “Boogie Nights”; “Bulworth”; “Swordfish”; “Mission to Mars”; John Singleton’s “Rosewood,” for which Cheadle earned an NAACP Image Award nomination; “The Family Man,” directed by Brett Ratner and starring Nicolas Cage; “Colors”; “Hamburger Hill”; and the independent features “Manic” and “Things Behind the Sun.”

For his work on television, Cheadle received a Golden Globe® Award and an Emmy® nomination for his remarkable

Cheadle also participated in Showtime’s multi-part television event “Years of Living Dangerously,” which tells the story of our time: climate change and the impact it is having on people right now in the U.S. and all over the world. The series reports on the crippling effects of climate change-related weather events and the ways individuals, communities, companies and governments are struggling to find solutions to the biggest threat our world has ever faced. News correspondents Thomas Friedman, Chris Hayes and Lesley Stahl report from across the globe, and Cheadle, Harrison Ford and Matt Damon, among others, share the stories of people and places impacted by a warming planet.

An accomplished stage actor, Cheadle originated the role of Booth in Suzan-Lori Parks’ Pulitzer Prize–winning play “Topdog/Underdog” at New York’s Public Theatre, under the direction of George C. Wolfe. His other stage credits include “Leon, Lena and Lenz” at the Guthrie Theater in Minneapolis; “The Grapes of Wrath” and “Liquid Skin” at the Mixed Blood Theatre in Minneapolis; “Cymbeline” at the New York Shakespeare Festival; “‘Tis Pity She’s a Whore” at Chicago’s Goodman Theatre; and Athol Fugard’s “Blood Knot” at The Complex Theater in Hollywood. He also directed “Cincinnati Man” at the Attic Theatre and “The Trip” at Friends and Artists Theater in Hollywood.

In addition to his many acting honors, Cheadle was nominated for a GRAMMY® Award in 2004 for best spoken word album for his narration/dramatization of the Walter Mosley novel “Fear Itself.”

Cheadle’s philanthropic work includes serving as a U.N. Ambassador for the United Nations Environment Programme. He also produced the documentary film “Darfur Now,” an examination of the genocide in Sudan’s western region of Darfur and, in 2007, he and George Clooney were recognized for their work for Darfur. The pair shared a Peace Summit Award at the 8th Annual World Summit of Nobel Peace Prize Laureates in Rome.

**DANAI GURIRA (Okoye)** is an award-winning playwright and actress. Gurira was last seen in Marvel Studios’ blockbuster “Avengers: Infinity War,” in which she reprised her role of Okoye from the Academy Award®–nominated “Black Panther.”

As a playwright, her works include “In the Continuum” (OBIE Award, Outer Critics Circle Award, Helen Hayes Award); “Eclipsed” (Tony Award® nomination: best play; NAACP Award; Helen Hayes Award: best new play; Connecticut Critics Circle Award: outstanding production of a play) and “The Convert” (six Ovation Awards, Los Angeles Drama Critics Award).

Gurira’s newest play, “Familiar,” received its world premiere at Yale Rep in 2015 and premiered in New York at Playwrights Horizons in February 2016. She is a recipient of the Sam Norkin Award at the 2016 Drama Desk Awards, a Whiting Award, and a Hodder Fellow, and has been commissioned by Yale Rep, Center Theatre Group, Playwrights Horizons and the Royal Court. As an actor, Gurira has appeared in the films “The Visitor” and “Mother of George,” and she also played Isabella in NYF’s “Measure for Measure” (Equity Callaway Award). She currently plays Michonne on AMC’s “The Walking
Dead” (NAACP Image Award nomination) and starred as Afeni Shakur in 2017’s Tupac Shakur biopic “All Eyez on Me.”

Gurira was born in the U.S. to Zimbabwean parents and raised in Zimbabwe. She serves as an ambassador for Bono’s ONE campaign and is the founder of LOGpledge.org, an awareness-building campaign focused on the plights of women and girls around the globe. She is also the co-founder of Almasi Arts, which works to give access and opportunity to African dramatic artists.

Gurira holds an MFA from Tisch School of the Arts, New York University.

**BRADLEY COOPER (Voice of Rocket)** was most recently seen in Clint Eastwood’s “The Mule,” which opened in theaters last December. Also in 2018, Cooper starred in and directed the acclaimed Oscar®–nominated film “A Star Is Born.” The film, nominated for best picture and with best actor noms for both Cooper and Lady Gaga, went on to win best original song. “A Star Is Born” also picked up Golden Globe® and BAFTA awards for original music.

Last year, Cooper also voiced Rocket in Marvel Studios’ blockbuster “Avengers: Infinity War,” reprising the role he made famous in Marvel Studios’ “Guardians of the Galaxy” and “Guardians of the Galaxy Vol. 2.”

In 2016, Cooper starred in Warner Bros.’ “War Dogs,” directed and produced by Todd Phillips. Cooper also served as a producer on the film under his and Phillips’ production company, Joint Effort.

Cooper’s upcoming projects include “Black Flags,” a television series for HBO based on the book “Black Flags: The Rise of ISIS,” which Cooper and Phillips will also executive produce under their Joint Effort production banner.

In 2016, Cooper reunited with David O. Russell, Jennifer Lawrence and Robert De Niro for the Golden Globe®–nominated “Joy.” The film was released by 20th Century Fox. In the fall of 2015, Cooper starred in “Burnt,” directed by John Wells and written by Steven Knight, alongside Daniel Brühl and Sienna Miller. The film was released by The Weinstein Company.

In 2015, Cooper completed a two-and-a-half-month London run of the play “The Elephant Man” at the Theatre Royal Haymarket in the West End, directed by Scott Ellis. Cooper reprised his role as John Merrick, alongside Patricia Clarkson and Alessandro Nivola. In the fall of 2014, Cooper performed the play at the Booth Theater on Broadway, which garnered him a Tony® nomination for best leading actor in a play, an Outer Critics Circle nomination for outstanding actor in a play, a Drama League Award for distinguished performance and a Drama Desk nomination for outstanding actor in a play. The Broadway production received five Tony nominations, including best revival of a play. Cooper previously performed the role on the Nikos Stage at the Williamstown Theatre Festival in the summer of 2012, also directed by Ellis alongside the same cast. In July 2015, Cooper reprised his role as Ben in the Netflix remake of “Wet Hot American Summer: First Day of Camp,” alongside Amy Poehler, Michael Ian Black and John Slattery.

In 2014, Cooper co-produced and starred in Clint Eastwood’s and Warner Bros.’ critically acclaimed, Oscar®–nominated film “American Sniper,” which became the top-grossing film of 2014. Cooper’s performance as celebrated Navy SEAL Chris Kyle garnered him his third Oscar nomination, a Producers Guild Award nomination, and won a Broadcast Film Critics Association Award and an MTV Movie Award. The film is based on an adaptation of the autobiography of Navy SEAL Chris Kyle, “American Sniper: The Autobiography of the Most Lethal Sniper in U.S. Military History.” Cooper optioned the book in 2012 under his production company. “American Sniper” was
released on December 25, 2014.

Also in 2014, Cooper was nominated for an Oscar® for best supporting actor for his portrayal as the unhinged FBI Agent Richie DiMaso in the David O. Russell drama “American Hustle,” starring opposite Christian Bale, Amy Adams and Jennifer Lawrence. “American Hustle” was nominated for 10 Academy Awards®, including best picture. Cooper received nominations for a BAFTA Award for best supporting actor, a Broadcast Film Critics Association Award, a Satellite Award and a Golden Globe® nomination for best performance by an actor in a supporting role in a motion picture. The cast received the Screen Actors Guild Award® for outstanding performance by a cast in a motion picture.

In the same year, Cooper lent his voice for the character Rocket in Marvel Studios’ 2014 smash action-adventure “Guardians of the Galaxy,” directed by James Gunn.

In April 2013, Cooper starred opposite Ryan Gosling, Eva Mendes and Dane DeHaan in the critically acclaimed Focus Features film “The Place Beyond the Pines,” directed by Derek Cianfrance. The film was recognized by the National Board of Review as one of its top 10 independent films of 2013.

Also in 2013, Cooper starred opposite Ed Helms and Zach Galifianakis in the third installment of the comedy trilogy, “The Hangover Part III.” Cooper also starred in the previous installments, all directed by Todd Phillips, which collectively grossed over $1.4 billion globally. “The Hangover Part II” smashed opening-weekend records for an R-rated comedy, and “The Hangover,” which grossed $469.2 million worldwide, still ranks domestically as the highest-grossing R-rated comedy ever.

In 2012, Cooper was nominated for an Oscar® for best actor for his portrayal of Pat Solitano in the critically acclaimed Weinstein Company drama “Silver Linings Playbook.” The film, directed by David O. Russell and starring Jennifer Lawrence, Robert De Niro, Jacki Weaver and Chris Tucker, was nominated for eight Academy Awards®, including best picture. Cooper was recognized by the National Board of Review for best actor and won the Broadcast Film Critics Association Award for best actor in a comedy. Cooper also received a Golden Globe® nomination for best performance by an actor in a motion picture – comedy or musical and a Screen Actors Guild Award® nomination for outstanding performance by a male actor in a leading role, as well as nominations from the Independent Spirit Awards for best male lead, and the BAFTAs for best leading actor.

In March 2011, Cooper starred opposite Robert De Niro and Abbie Cornish in the box-office smash “Limitless,” distributed by Relativity Media and directed by Neil Burger. Cooper also served as a producer on the film.

Cooper made his Broadway debut in the spring of 2006 in Joe Montello’s production of “Three Days of Rain,” opposite Julia Roberts and Paul Rudd. In July 2008, he joined the cast of the critically acclaimed Theresa Rebeck play “The Understudy,” which premiered at the Williamstown Theatre Festival to rave reviews and sold-out performances.

On television, Cooper portrayed the character of Will Tippin on the hit ABC series “Alias,” which was on the air for five seasons. Cooper also starred in the FX Drama “Nip/Tuck” as well as Fox’s single-camera comedy “Kitchen Confidential,” based on the trials and tribulations of renowned chef Anthony Bourdain. His other television credits include “Jack & Bobby” and a guest appearance on “Sex and the City.”
In March 2012, Cooper and Warner Bros. entered into a two-year first-look deal for his production company, 22nd & Indiana Pictures. In 2015, Cooper joined forces with longtime friend and partner Todd Phillips to form production company Joint Effort as producing partners for a three-year first-look production deal with Warner Bros. Pictures.

Born in Philadelphia, Cooper graduated with honors in the English program at Georgetown University. After moving to NYC, he obtained his master’s in the fine arts program at the Actors Studio Drama School.

Scottish-born actress KAREN GILLAN (Nebula) quickly made her mark in Hollywood as a young talent who can do both comedy and drama, big-budget films and quirky indies, as demonstrated by her diverse résumé.

Next up for Gillan is “Stuber,” an action comedy about an Uber driver who gets caught up in an adventure; the animated “Spies in Disguise,” in which she voices Eyes; and “All Creatures Here Below,” a drama about a young couple on the run.

Last year, Gillan’s feature film directorial debut, “The Party’s Just Beginning,” which she also wrote and starred in, was released. Filmed in her hometown of Inverness, Scotland, the film follows the story of a girl named Liusaidh, who is dealing with the suicide of her best friend.

In 2017, Gillan also starred as the coveted female lead role in Sony’s “Jumanji: Welcome to the Jungle” as Martha/Ruby Roundhouse opposite Dwayne “The Rock” Johnson. She is now filming the untitled sequel.

Also in 2017, she co-starred opposite Emma Watson and Tom Hanks in STX’s “The Circle,” which is adapted from Dave Eggers’ best-selling novel of the same name.

In 2016, Gillan appeared in the revenge Western film “In a Valley of Violence,” produced by Blumhouse Productions and written and directed by Ti West. In 2015, she also appeared in a cameo role in Paramount’s Academy Award®–winning film “The Big Short.”

In the fall of 2014, Gillan starred in the role of Eliza Dooley in the new ABC comedy “Selkie” from creator Emily Kapnek. The sitcom took a modern twist on the classic “My Fair Lady.”

In May 2009, Gillan was cast in the iconic role of Amy Pond, the Doctor’s companion, in the long-running hit British science-fiction television series “Doctor Who.” Gillan played the role for three seasons. Gillan garnered several awards for her portrayal, including Cosmopolitan’s Woman of the Year Award for best actress in 2010; SFX Award’s best actress; a TV Choice Award for best actress; and a Scream Award for best sci-fi. The award-winning show has a huge following globally and it is broadcast on BBC America in the U.S.

Gillan’s other credits include the BBC drama “We’ll Take Manhattan,” as well as the romantic lead in John McKay’s romantic comedy “Not Another Happy Ending.” She was also seen in the box-office success thriller film “Oculus,” which was written and directed by Mike Flanagan and was released by Relativity Media in April 2014.

Growing up in Inverness, Scotland, as an only child, Gillan caught the acting bug at a young age and set the bar
high by joining several local youth theatre groups and taking part in a wide range of productions at Charleston Academy. Gillan pursued acting at Edinburgh’s Telford College and at Performing Arts Studio Scotland, studying under renowned theater director Scott Johnston. She later moved to London, at the age of 18, to study drama at the prestigious Italia Conti Academy of Theatre Arts. The 5’11” actress briefly fell into the world of modeling while she continued to pursue her acting career. Gillan resides in New York.

Oscar®–winning actress GWYNETH PALTROW (Pepper Potts), whose 1998 turn in “Shakespeare in Love” garnered her best actress honors at the Golden Globe® Awards, Screen Actors Guild Awards® and Academy Awards®, is also a decorated author and singer.

Paltrow is well-loved for her role of Pepper Potts, the love interest of Tony Stark/Iron Man (played by Robert Downey Jr.) in Marvel Studios films. She was most recently seen in the blockbuster “Avengers: Infinity War.” She has also played Pepper in “Spider-Man: Homecoming” and in all three “Iron Man” films.

Paltrow is currently filming episodes of “The Politician,” a Netflix series that will start airing on September 27.

In 2011, she won an Emmy® for outstanding guest actress in a comedy series for playing substitute teacher Holly Holliday on “Glee,” and her song “Coming Home,” from the soundtrack for “Country Strong,” was nominated for an Oscar® (the album went gold).

Other notable film credits include “Proof” (for which she received a Golden Globe® nomination), Wes Anderson’s “The Royal Tenenbaums,” Anthony Minghella’s “The Talented Mr. Ripley,” David Fincher’s “Seven,” the Farrelly brothers’ “Shallow Hal,” Alfonso Cuarón’s “Great Expectations,” Douglas McGrath’s “Emma” and “Sliding Doors.”

In addition, Paltrow has authored two New York Times best-selling cookbooks, “My Father’s Daughter” (2011) and “It’s All Good” (2013) – the latter hit No. 1. She also co-wrote “Spain ... A Culinary Road Trip” with acclaimed chef Mario Batali after their PBS documentary, “Spain ... on the Road Again,” which was about Spanish food and culture, aired. Paltrow’s latest cookbook, “It’s All Easy,” was released in April 2016.

In 2008, Paltrow launched Goop, a brand devoted to making every choice count, where food, shopping and mindfulness collide. In particular, Goop has gained acclaim for its focus on health, wellness and clean eating, as well as its city guides, an insider’s perspective on the very best places to eat, shop and stay in the world’s most compelling destinations.

Academy Award®–nominated actor JOSH BROLIN (Thanos) continues to balance challenging roles in both mainstream studio productions and thought-provoking independents.

Last year, Brolin starred as the multi-layered villain, Thanos, in Marvel Studios’ star-studded blockbuster “Avengers: Infinity War.” He went on to star as Cable, opposite Ryan Reynolds, in the sequel “Deadpool 2.” He followed that film up with “Sicario: Day of the Soldado,” in which he reprised his role as special agent Matt Graver opposite Benicio Del Toro’s mercurial Alejandro.

Brolin is currently filming Warner Bros.’ “Dune,” the feature adaptation of Frank Herbert’s science fiction novel, directed by Denis Villeneuve. The film is slated for a November 2020 release.

Brolin recently led an all-star cast in Joseph Kosinski’s film “Only the Brave,” the true story of the Granite Mountain
Hotshots, an elite crew of firefighters who fought the Yarndell Hill Fire in June 2013. The film was released by Columbia Pictures in 2017.

Other recent credits include Joel and Ethan Coen’s comedy “Hail, Caesar!” opposite George Clooney, Channing Tatum and Tilda Swinton; “Everest,” opposite Jake Gyllenhaal, Jason Clarke and John Hawkes; “Sin City: A Dame to Kill For,” directed by Robert Rodriguez and Frank Miller; and Paul Thomas Anderson’s “Inherent Vice,” an adaptation of the Thomas Pynchon detective novel of the same name, alongside an all-star cast, including Joaquin Phoenix, Reese Witherspoon and Owen Wilson.

Other notable credits include the Coen brothers’ “True Grit,” which was nominated for 10 Academy Awards®, including best picture, and Oliver Stone’s “Wall Street: Money Never Sleeps,” opposite Shia LaBeouf and Michael Douglas. He received rave reviews for his portrayal of George W. Bush in Oliver Stone’s biopic “W.”

In 2008, Brolin was nominated for an Academy Award® and a Screen Actors Guild Award®, and received awards from the New York Film Critics Circle and the National Board of Review, for his portrayal of Dan White in Gus Van Sant’s acclaimed film “Milk.”

Prior to that, Brolin earned a Screen Actors Guild Award® as part of an ensemble for his work in the Coen brothers’ “No Country for Old Men,” which won four Academy Awards®, including best picture and best director. Additionally, Brolin starred in Ridley Scott’s blockbuster “American Gangster” and was nominated for a Screen Actors Guild Award as part of that ensemble.

On television, Brolin made his mark as a series regular in the popular ABC series “The Young Riders,” as well as “Private Eye” and “Winnetka Road” for NBC. Brolin also received critical praise in the TNT epic miniseries “Into the West,” opposite Beau Bridges, Gary Busey and Jessica Capshaw. In addition, Brolin starred in the title role of NBC’s acclaimed political drama “Mister Sterling.”

As a producer, Brolin joined Matt Damon, Chris Moore, Anthony Arnove and Howard Zinn in a documentary entitled “The People Speak,” based in part on Zinn’s influential 1980 book “A People’s History of the United States.” The film, which aired on the History Channel in 2009, looked at America’s struggles with war, class, race and women’s rights, and featured readings by Viggo Mortensen, Sean Penn and David Strathairn, among others. Brolin made his directing debut in 2008 with a short entitled “X,” which he also wrote and produced. It premiered at the Santa Barbara International Film Festival before screening at such festivals as South by Southwest and the AFI Dallas Film Festival.
TESSA THOMPSON (Valkyrie) has a long-standing career that reached special prominence with her role as the female lead in the Warner Bros. Pictures and Metro-Goldwyn-Mayer Pictures film “Creed,” from award-winning filmmaker Ryan Coogler. The film explored a new chapter in the “Rocky” story and starred Michael B. Jordan and Sylvester Stallone in his iconic role. Thompson starred as Bianca, a local singer-songwriter who becomes involved with Adonis (Michael B. Jordan). The film was released on November 25, 2015, and garnered critical acclaim and award accolades for the cast. The National Board of Review selected “Creed” as one of the top films of 2015.

In 2018, Thompson reprised her role in “Creed II,” opposite Michael B. Jordan and Sylvester Stallone, and also starred in “Little Woods” with Lily James. Additionally, she was seen in “Furlough” with Melissa Leo, Anna Paquin, Whoopi Goldberg and La Anthony.

Next up, Thompson will star in “Men in Black: International,” opposite Chris Hemsworth and Liam Neeson, and as the voice of Lady in Disney’s “Lady and the Tramp.”

In the spring of 2016, Thompson made her off-Broadway debut in the Second Stage Theater production of Lydia R. Diamond’s “Smart People,” appearing alongside a cast that also included Joshua Jackson, Mahershala Ali and Anne Son, for director Kenny Leon. “Smart People” began previews January 26 ahead of a February 11 opening and ran through March 6, 2016.

In 2016, she filmed the action-comedy “War on Everyone,” about two corrupt cops in New Mexico who set out to blackmail and frame every criminal unfortunate enough to cross their path. Theo James, Alexander Skarsgård and Michael Peña also starred for director John Michael McDonagh.

Thompson portrayed the civil-rights activist Diane Nash in the Brad Pitt/Oprah Winfrey-produced film “Selma.” After its initial premiere at the American Film Institute Festival on November 11, 2014, the film had a wider theatrical release on January 9, 2015, and a commemorative re-release on March 20, 2015, in honor of the 50th anniversary of the historical march. It garnered nominations for best picture and awards for best original song at both the Golden Globe® and Academy Awards®, and additional best director and best actor nominations at the Golden Globes.

Thompson also starred in the critically acclaimed 2014 film “Dear White People.” The Justin Simien independent satirical drama, which followed the lives of various black students at an American university, hit theaters on October 17, 2014, after its debut at the 2014 Sundance Film Festival. Thompson’s performance as Samantha White landed her a Gotham Award for breakthrough actor, as well as a nomination for outstanding actress in a motion picture for the 46th Annual NAACP Image Awards.

In 2010, Thompson starred as Nyla/Purple in Tyler Perry’s film “For Colored Girls” alongside an ensemble cast of co-stars, including Hollywood heavyweights Janet Jackson, Whoopi Goldberg, Phylicia Rashad and Kerry Washington. The film portrayed a series of African-American women, each of whom dealt with their own
personal struggles and conflicts such as love, abandonment, rape, infidelity and abortion.

Thompson started her career at the young age of 18 with her professional debut playing Juliet in “Romeo and Juliet: Antebellum New Orleans 1836,” for which she received an NAACP Image Award nomination. She then went on to her first feature film appearance as Scarlet in the 2006 remake of the horror film “When a Stranger Calls.” Between 2008 and 2009, she also appeared in the films “Make It Happen,” The Human Contract,” “Periphery,” “Red & Blue Marbles” and “Mississippi Damned,” for which she was awarded a grand jury prize for best actress.

On top of these early theater and film features, Thompson’s career has also extended into the television arena. She is best known for her role as series regular Jackie Cook on the second season of the hit CW teen noir drama “Veronica Mars.”

Thompson also starred as Sara Freeman on BBC America’s first original scripted program, “Copper,” from 2012 to 2013. The show followed an Irish immigrant police officer in 1860s New York City and explored the effects of the American Civil War and the social stratification between New York’s aristocracy and the African-American population.

Thompson’s other television credits include guest roles as Rebecca Taylor on the fourth season of NBC’s hit sci-fi drama “Heroes”; Billie Ducette in CBS’s police series “Cold Case”; Camille on ABC’s medical series “Grey’s Anatomy”; and Nikki Barnes on the CW’s teen drama “Hidden Palms.” She has also appeared as a guest star in shows such as “Life,” “Private Practice,” “Detroit 187,” “Rizzoli & Isles,” “Off the Map” and “666 Park Avenue.”

Thompson currently splits her time between Los Angeles and New York.

BENEDICT WONG (Wong) has had a variety of roles on stage and screen over the last 25 years. His film credits include “Dirty Pretty Things” (for which he was nominated for best supporting actor at the British Independent Film Awards); Danny Boyle’s “Sunshine”; Duncan Jones’ “Moon” and Ridley Scott’s “Prometheus” and “The Martian.”

Wong was most recently seen in Alex Garland’s “Annihilation” and next stars in Ang Lee’s “Gemini Man.” He is also voicing Bull in Disney’s upcoming “Lady and the Tramp.”

He first played Wong in Marvel Studios’ “Doctor Strange” in 2016 and most recently reprised the character for 2018’s mega-hit “Avengers: Infinity War.”

Television credits include “Deadly Class,” “Black Mirror,” “Top Boy,” “The IT Crowd,” “Run,” “The Wrong Mans” and the Netflix series “Marco Polo.”

On stage, Wong has appeared as Laertes in “Hamlet” at the Young Vic, and played critically acclaimed lead roles on stage in London, from Ai Weiwei in “The Arrest of Ai Weiwei” to Zhang Lin in the Olivier Award–winning “Chimerica.”

ABOUT THE FILMMAKERS

ANTHONY and JOE RUSSO (Directors) made their Marvel cinematic directorial debut with the box-office blockbuster “Captain America: The Winter Soldier.” After a record-breaking opening weekend, the film went on
to gross more than $713 million worldwide. They followed the film with Marvel Studios’ “Captain America: Civil War,” which recorded a $179 million opening weekend on its way to grossing $1.15 billion at the worldwide box office.

Last year, the duo helmed Marvel Studios’ highly anticipated “Avengers: Infinity War,” which broke box-office records in its opening weekend and, 11 days after release, crossed the $1 billion mark worldwide, breaking the record for the shortest time to reach $1 billion in box-office receipts. The film’s worldwide box office exceeds $2 billion to date, making it the highest-grossing Marvel Studios film thus far.

The Russo brothers were born a year apart in Cleveland, Ohio, where they grew up on the east side, and graduated from Benedictine High School before embarking on their film careers (Anthony in ’88 and Joe in ’89). In 1994, they used credit cards and student loans to finance “Pieces,” an experimental comedy about a criminally inclined trio of brothers. They shot the film in and around Cleveland with the help of numerous friends and family. Their gamble paid off when the film screened at both the Slamdance and American Film Institute festivals in 1997, earning Joe a best actor award from the latter.

The Slamdance screening caught the attention of filmmaker Steven Soderbergh, who, along with his producing partner George Clooney, asked to produce the brothers’ second film, the crime comedy “Welcome to Collinwood.”

Kevin Reilly was rebuilding the FX network when he first saw “Welcome to Collinwood,” and he asked the pair to direct the pilot for his new flagship comedy, “Lucky.” In downtown Las Vegas, where the show was set, Anthony and Joe used handheld camera work and a guerrilla shooting style to capture the edgy, absurdist tone of the show, producing a pilot that became an industry favorite.

Among the pilot’s fans was Imagine Entertainment co-founder Ron Howard, who, along with writer Mitch Hurwitz, were looking to take the well-worn situation comedy in a new direction. The Russo brothers’ penchant for experimentation seemed the perfect fit for Howard’s desire to get the sitcom out of the soundstage and into the streets.

By shooting “Arrested Development” on advanced HD cameras and minimizing the need for complex lighting and crews, the brothers not only opened up a whole new world of creative possibilities but provided the style for Hurwitz’s self-conscious, rapid-fire writing. A significant gamble for all involved, it paid off at the 2004 Emmy® Awards, where Hurwitz won for best writing, the Russo brothers won for best directing and “Arrested Development” won for best comedy series. Though “Arrested Development” would ultimately be canceled after three seasons, few could deny the impact or innovation that earned the series a dedicated critical and cult following.

The Russo brothers have also directed numerous pilot episodes across a variety of networks, including “LAX,” “What About Brian,” “Carpoolers” and “Running Wilde.” The duo also served as executive producers on NBC’s “Community” and ABC’s “Happy Endings.”

CHRISTOPHER MARKUS & STEPHEN MCFEELY (Screenplay by) are the talented screenwriters behind several Marvel Studios films, including “Avengers: Infinity War,” “Captain America: Civil War,” “Captain America: The Winter Soldier,” “Captain America: The First Avenger” and “Thor 2: The Dark World.”

The writing duo also penned Michael Bay’s controversial true-crime film, “Pain & Gain.” They have also taken moviegoers to the land of Narnia for all three big-screen adventures: “The Chronicles of Narnia: The Lion, the

Markus and McFeely have been writing together since 1995. They penned the original screenplay for the critically acclaimed HBO feature “The Life and Death of Peter Sellers,” starring Academy Award® winner Geoffrey Rush. This, their first produced film, premiered in competition at the 2004 Cannes Film Festival and went on to earn numerous honors, including nine Emmy® Awards. Markus and McFeely won the Emmy for outstanding writing for a miniseries, movie or dramatic special, as well as a Writers Guild Award®. Their first screenplay, “You Kill Me,” was directed by John Dahl in 2007, and starred Ben Kingsley, Téa Leoni and Luke Wilson.

KEVIN FEIGE (Producer) has been the driving creative force behind several billion-dollar franchises and an unprecedented number of blockbuster feature films, all connected to create the Marvel Cinematic Universe. In his current role as producer and president of Marvel Studios, Feige is a hands-on producer and oversees Marvel Studios’ feature film productions, whose 21 films released have all opened No. 1 at the box office and collectively grossed over $19 billion worldwide. Six of the MCU films have crossed the $1 billion threshold at the global box office.

Feige has been recently honored with two awards for his achievements as a producer: The 2019 David O. Selznick Achievement Award from the Producers Guild of America® and the Albert R. Broccoli Britannia Award for Worldwide Contribution to Entertainment from BAFTA (British Academy Film Awards).

Most recently, Feige produced “Captain Marvel,” the Marvel Cinematic Universe’s first stand-alone, female-franchise title character. “Captain Marvel” opened on March 8, with an opening of over $455 million worldwide. The film has garnered over $900 million since its release.

Last summer, Feige produced “Ant-Man and The Wasp,” which opened on July 6, 2018, and has made over $622 million at the worldwide box office.

On April 27, 2018, “Avengers: Infinity War” opened and broke box-office records with $250 million domestically and $630 million worldwide in its opening weekend. Eleven days after release, the film crossed the $1 billion mark worldwide, breaking the record for the shortest time to reach $1 billion in box-office receipts. The film’s worldwide box office exceeds $2 billion to date, making it the highest-grossing Marvel Studios film thus far.

In February of 2018, Feige also produced “Black Panther,” which continued Marvel’s unprecedented success. The blockbuster film recorded the fifth biggest opening weekend of all time with $202 million and has grossed over $1.3 billion worldwide to date. In January, “Black Panther” picked up seven Oscar® nominations, including Best Picture, and went on to win three Academy Awards®: best costume design, best production design and best original music score. “Black Panther” also won the SAG® (Screen Actors Guild) Outstanding Performance by a Cast in a Motion Picture Award.

In 2017, Feige produced “Thor: Ragnarok,” which was released on November 3 in the U.S. and grossed $121 million domestically in its opening weekend, in addition to $306 million internationally; “Guardians of the Galaxy Vol. 2,” which opened on May 5 with $145 million and has grossed over $863.5 million worldwide; and “Spider-Man: Homecoming,” which opened on July 7 and has garnered over $879 million worldwide to date.

In 2016, Feige launched another franchise with “Doctor Strange,” which continued the streak of No. 1 openings, and produced “Captain America: Civil War,” the highest-grossing film of 2016 worldwide. In 2015, he launched

In 2013, Feige produced the megahits “Thor: The Dark World” and “Iron Man 3.” In 2012, Feige produced the critically acclaimed “Marvel’s The Avengers,” which set an all-time domestic three-day-weekend box-office record. The film went on to become Disney’s highest-grossing global and domestic release at the time.

In summer 2008, Feige produced the first fully developed and financed films from the new Marvel Studios, including the blockbusters “Iron Man,” directed by Jon Favreau, and “The Incredible Hulk,” directed by Louis Leterrier.

Feige joined Marvel in 2000 and served as executive producer on the second and third “Spider-Man” films, which took in combined worldwide box-office receipts of well over $1.5 billion. Feige also co-produced “X-Men 2,” the second installment of the popular “X-Men” franchise, and executive produced “X-Men: The Last Stand,” among many other Marvel-branded films.

A graduate of the University of Southern California, School of Cinematic Arts, Feige first worked for Lauren Shuler Donner and Richard Donner at their Warner Bros.–based production company, which released the action-adventure “Volcano” and the hit romantic comedy “You’ve Got Mail.” Feige earned his first producer credit on “X-Men,” a film that is credited with revitalizing the comic-book genre.

As co-president of the studio and executive producer on all Marvel films, D’Esposito balances running the studio with overseeing each film from its development stage to distribution.

In addition to executive producing Marvel Studios’ films, D’Esposito directed the Marvel One-Shot film “Item 47,” which made its debut to fans at the 2012 Comic-Con International in San Diego and was featured again at the LA Shorts Fest in September 2012. The project was released as an added feature on the “Marvel’s The Avengers” Blu-ray disc. With the success of “Item 47,” D’Esposito directed the second Marvel One-Shot, “Agent Carter,” starring Hayley Atwell, which premiered at the 2013 Comic-Con to critical praise from the press and fans. The project is also an added feature on the “Iron Man 3” Blu-ray disc.

D’Esposito began his tenure at Marvel Studios in 2006. Prior to Marvel, D’Esposito’s executive-producing credits

**VICTORIA ALONSO (Executive Producer)** currently serves as EVP of Production for Marvel Studios, one of the very few women in Hollywood to hold such a title. Over the years, Alonso’s dedication to the industry has been admired and her achievements recognized. In 2015, she was an honoree of the New York Women in Film & Television’s Muse Award for Outstanding Vision and Achievement. She was also the first woman to be presented with the Harold Lloyd Award from the Advanced Imaging Society, which is given to a filmmaker who has created a body of work, and specific achievements in 3D, that advanced the motion picture art form. In 2017, she was the first woman to be honored with the Visionary Award at the 15th Annual VES Awards for her advancement of unforgettable storytelling through visual effects.

A native of Buenos Aires, Alonso began her industry career in visual effects (first in commercials, then features), including a four-year stint at Digital Domain. She served as VFX producer on a handful of films, notably Ridley Scott’s “Kingdom of Heaven,” Tim Burton’s “Big Fish,” Andrew Adamson and Vicky Jenson’s “Shrek” and Marvel’s own “Iron Man.” She won the Visual Effects Society (VES) Award for outstanding supporting visual effects/motion picture for “Kingdom of Heaven,” with two additional shared nominations (best single visual effects, outstanding visual effects/effects driven motion picture) for “Iron Man.”

Currently, Alonso is working on “Spider-Man: Far From Home.” Alonso has been listed in The Hollywood Reporter’s Women in Entertainment Power 100 in both 2017 and 2018.

**MICHAEL GRILLO (Executive Producer)** has enjoyed a successful career in filmmaking as a producer, studio production executive and first assistant director. Previously for Marvel Studios, Grillo executive produced “Avengers: Infinity War,” “Ant-Man” and “Captain America: The Winter Soldier.”

Grillo served as a producer on the Academy Award®–nominated film “The Accidental Tourist,” as well as “The Trigger Effect,” “Grand Canyon” and “Defending Your Life.” He also served as executive producer on the films “The Amazing Spider-Man,” “The Green Hornet,” “The Uninvited,” “The Peacemaker,” “Wyatt Earp,” “I Love You to Death” and “Silverado.”

Grillo also served as head of feature production at DreamWorks, where he oversaw the films “The Terminal,” “EuroTrip,” “Head of State,” “Catch Me If You Can,” “The Ring” and “Road to Perdition.”

Grillo started his career as an assistant director, and his credits include an impressive list of films, including “The Deer Hunter,” “The Big Chill,” “Breaking Away,” “New York, New York,” “Inside Moves,” “Body Heat,” “Irreconcilable Differences,” “In the Line of Fire,” “Heaven’s Gate,” “Fun with Dick and Jane,” “Young Frankenstein” and “The Towering Inferno.”
TRINH TRAN (Executive Producer) is a development executive at Marvel Studios and served as associate producer on “Captain America: Civil War” and as a creative executive on “Captain America: The Winter Soldier.” Tran served as executive producer on the third installment of the “Avengers” franchise, “Avengers: Infinity War,” which was released on April 27, 2018.

JON FAVREAU (Executive Producer & Happy Hogan) began his career in the industry as an actor in the inspiring sports film “Rudy.” He then went on to establish himself as a writer with the acclaimed hipster comedy “Swingers.” Since then, he has continued to challenge himself as a filmmaker with an eclectic variety of projects.

Favreau directed and produced 2016’s live-action/CG hybrid adaptation of Walt Disney’s “The Jungle Book,” which garnered widespread acclaim as a marvel of technology-driven cinematic storytelling honoring the original 1967 animated classic. Among the epic adventure’s many accolades, Favreau’s team won an Oscar® and the BAFTA Award for best achievement in visual effects, five VES Awards and an Annie Award for outstanding achievement in character animation in a live-action production. Featuring the voices of Bill Murray, Ben Kingsley, Idris Elba, Lupita Nyong’o, Scarlett Johansson, Giancarlo Esposito and Christopher Walken, with newcomer Neel Sethi starring as Mowgli, the film’s only human character, “The Jungle Book” was a global blockbuster, earning $965.8 million worldwide.

An integral part of the formation and expansion of the Marvel Cinematic Universe, Favreau directed the blockbuster hits “Iron Man” and “Iron Man 2,” which grossed a combined $1.3 billion at the worldwide box office. He served as executive producer on “Marvel’s The Avengers” and “Avengers: Age of Ultron,” which grossed a combined $2.9 billion worldwide. He most recently was an executive producer on “Avengers: Infinity War,” which broke box-office records and climbed to over $2 billion in ticket sales.

Next up for Favreau is Disney’s “The Lion King,” slated for release on July 19. Favreau is directing and producing the all-new take on Disney’s 1994 classic to include stars from the film, TV, theater and music arenas. Featuring pioneering filmmaking techniques, the film welcomes back to the big screen iconic characters that audiences have long treasured—but in a whole new way. From Disney Live Action, “The Lion King” is slated for U.S. theaters on July 19, 2019, and will feature the talents of Donald Glover, Beyoncé Knowles-Carter, James Earl Jones, Chiwetel Ejiofor, Alfie Woodard, JD McCrary, Shahadi Wright Joseph, John Kani, Seth Rogen, Billy Eichner, Florence Kasumba, Eric Andre and Keegan-Michael Key.

In 2014, Favreau wrote, directed, produced and starred the indie hit “Chef,” which also starred Sofia Vergara, Scarlett Johansson, Dustin Hoffman, John Leguizamo and Robert Downey Jr. Among its accolades, “Chef” was honored with the Tribeca Audience Award for best narrative film.

In front of the camera, Favreau was seen in “The Wolf of Wall Street,” “Identity Thief” and “People Like Us.” His other film credits, as an actor, include “Couples Retreat,” “I Love You, Man,” “Four Christmases,” “The Break-Up,” “Wimbledon,” “Something’s Gotta Give,” “Daredevil,” “Love & Sex,” “The Replacements,” “Very Bad Things” and “Deep Impact.” He also portrayed legendary heavyweight champion Rocky Marciano in the MGM biopic “Rocky
Marciano.” Favreau also starred opposite his “Swingers” co-star Vince Vaughn in “Term Life.” Within the Marvel Cinematic Universe, Favreau portrays Happy Hogan, a character who appears in the “Iron Man” movies and “Spider-Man: Homecoming” as security head and personal chauffeur to Iron Man alter ego Tony Stark (played by Robert Downey Jr.).

Favreau’s television credits include a recurring role on “Friends” and a special appearance on HBO’s “The Sopranos,” playing himself. Favreau also added the title of showrunner to his multi-hyphenate list of credits as the creator, producer and host of the critically acclaimed and Emmy®-nominated IFC series “Dinner for Five.” He also executive produced the TV series “Revolution” and “The Shannara Chronicles.”

Among his honors, Favreau received the Visual Effects Society’s lifetime achievement award during the 16th annual VES Awards in 2018. In 2016, he was inducted into Variety’s Home Entertainment & Digital Hall of Fame, recognizing his role as a creative trailblazer and innovator in the world of content creation.

For Lucasfilm, Favreau is executive producing and writing a live-action “Star Wars” series called “The Mandalorian” for Disney’s new direct-to-consumer platform. Favreau is no stranger to the “Star Wars” galaxy, having played roles in both the “Star Wars: The Clone Wars” animated series and in “Solo: A Star Wars Story.”

Recently, Favreau created the “Gnomes & Goblins” virtual reality experience with Wevr and Reality One.

JAMES GUNN (Executive Producer) is the prolific filmmaker behind some of pop culture’s most notable feature films.

Born and raised in St. Louis, Missouri, Gunn began his career at the age of 12 by making a zombie movie with an eight-millimeter camera and an actor, his brother Sean.

Thirty years later, Gunn brought to life what is now turning into one of the most memorable franchises in the Marvel Cinematic Universe, “Guardians of the Galaxy.” Gunn wrote and directed both “Guardians of the Galaxy” and “Guardians of the Galaxy Vol. 2,” which have earned a combined $1.5 billion at the global box office. The original was the second-highest-grossing film of 2014 and spent five weekends atop the charts, a record in Marvel history, which has only been matched by “Black Panther.” The franchise has garnered impressive reviews from film critics around the world, won the Critics’ Choice Award for best action movie and was nominated for three Academy Awards®, two GRAMMY® Awards, two BAFTAs, seven MTV Movie Awards and two People’s Choice Awards, among many others. Gunn was personally nominated for a WGA Award for best adapted screenplay in 2014.

Knowing what an important role music plays in a movie, Gunn personally chose every song included in the “Guardians of the Galaxy” film soundtracks. The albums—“Awesome Mix Vol. 1” and “Awesome Mix Vol. 2,” which featured pop songs from the 1960s and ’70s—were highly praised by critics as being secondary characters in the films. “Awesome Mix Vol. 1” is the first soundtrack comprised entirely of previously released songs to ever reach the No. 1 spot on the Billboard charts. “Vol. 1” went on to become certified platinum status; “Vol. 2” finished 2017 as the country’s eighth-highest-selling album, with 600,000 copies, and has been certified gold by the Recording Industry Association of America.

The films are cemented with stellar performances from Chris Pratt, Zoe Saldana, Bradley Cooper, Vin Diesel, Dave Bautista, Glenn Close and Benicio Del Toro. Also featured in the film is Gunn’s brother Sean, who played Kraglin and the on-set version of Rocket. Gunn is currently writing the third installment of “Guardians of the
“Galaxy,” which he is also set to direct.

Gunn is currently in production on an untitled horror project starring Elizabeth Banks. Gunn will serve as producer along with The H Collective. The plot is currently under wraps.

Additionally, Gunn released his horror feature “The Belko Experiment,” which he wrote and produced. Starring John Gallagher Jr., Tony Goldwyn, Sean Gunn and Adria Arjona, the feature is a terrifying, provocative and at times hilarious thrill ride that provokes the question: What does it take to survive at work? It premiered during Midnight Madness at the 2016 Toronto International Film Festival and was immediately acquired by Blumhouse’s BH Tilt and Orion.

Gunn’s love for the comedy and horror genres coalesced in the humorous horror film “Slither,” released by Universal in 2006. Gunn wrote the film, which was his feature-film directorial debut and stars Nathan Fillion and Elizabeth Banks. The film is currently featured on Rotten Tomatoes as one of the Top Ten All-Time Best Reviewed Horror Films. It was named best horror film of 2006 by Rue Morgue magazine, and Gunn won a Saturn Award and a Fangoria Chainsaw Award for his work on the film.

Additionally, Gunn directed the independent feature film “Super,” starring Rainn Wilson, Ellen Page, Liv Tyler and Kevin Bacon. It is the dark, comedic tale of a disturbed man who dresses up as a superhero to save his ex-wife from her drug-dealing new boyfriend. “Super” was an official selection at the Toronto Film Festival, was picked up by IFC Films and is IFC’s top-selling film ever on Demand.

In 2002, Gunn wrote the live-action “Scooby-Doo” movie, which grossed over $300 million worldwide. He became the first screenwriter in history to write back-to-back No.-1-for-the-weekend box-office hits, with the critically acclaimed, re-imagined “Dawn of the Dead” on March 19, 2004, and “Scooby-Doo 2: Monsters Unleashed” on March 26, 2004.

Gunn got his start in the industry while attending Columbia University. He applied for a part-time job filing papers at famed B-movie studios Troma Entertainment, and was paid $150 to write the screenplay for the feature “Tromeo & Juliet” instead. In 1997, “Tromeo” became a cult hit, playing in theaters around the world, including over a year of midnight screenings in Los Angeles.

Gunn left Troma to write and star in (along with Rob Lowe, Thomas Haden Church and Jamie Kennedy) the 2000 feature film “The Specials,” about a group of superheroes on their day off. In the same year, Bloomsbury Press released Gunn’s critically acclaimed novel “The Toy Collector,” the story of a hospital orderly who sells drugs to finance his escalating toy-collecting addiction.

He also wrote, with Lloyd Kaufman, the nonfiction book “All I Need to Know About Filmmaking I Learned from the Toxic Avenger,” currently in its fifth printing.

In 2012, Gunn released his first video game, “Lollipop Chainsaw,” with Suda 51 and Warner Bros., on Xbox and PlayStation 3. In 2008, he created Xbox Live’s first original content, producing seven comedy shows by horror directors and creating his own, “Sparky & Mikaela.” Gunn also hosted the reality show “Scream Queens” for VH1.

Gunn lives in Los Angeles with his dog, Dr. Wesely Von Spears, and his cat, Emily Monster.
The late **STAN LEE (Executive Producer)** was the founder of POW! Entertainment and served as its chairman and chief creative officer since its inception. Known to millions as the man whose superheroes propelled Marvel to its preeminent position in the comic-book industry, the late Stan Lee’s co-creations include Spider-Man, the Incredible Hulk, X-Men, the Fantastic Four, Iron Man, Daredevil, Silver Surfer and Doctor Strange.

Having achieved the title of chairman emeritus of Marvel Media, Lee first became publisher of Marvel Comics in 1972. He was recognized as the creative force that brought Marvel to the forefront of the comics publishing industry. In 1977, he introduced Spider-Man as a syndicated newspaper strip that became the most successful of all syndicated adventure strips and now appears in more than 500 newspapers worldwide—making it the longest running of all superhero strips.

From June 2001 until the formal creation of POW! in November 2001, Lee worked to form POW! and to create intellectual property for POW! and start the development of various POW! projects.

**TRENT OPALOCH (Director of Photography)** broke into the ranks of cinematographers with the critically acclaimed hit film “District 9.” The film was nominated for four Academy Awards®, including best picture. He followed by lensing the sci-fi-thriller hit “Elysium,” starring Matt Damon and Jodie Foster.

Opaloch got his start as a cinematographer in the world of short films.

**CHARLES WOOD (Production Designer)** began his entertainment industry career in 1991 as a visual effects art director, working on such projects as Andrew Davis’ “The Fugitive” and “Under Siege,” Sam Raimi’s “Army of Darkness” and Peter Weir’s “Fearless.”

Earlier credits include Peter Howitt’s “Laws of Attraction,” “The Italian Job,” directed by F. Gary Gray, and Stephen Kay’s “Get Carter.”

**DAVE JORDAN (Music Supervisor)** is the founder, CEO and creative leader of Format Entertainment.

Jordan began his career in the record industry but soon transitioned to become one of Hollywood’s most sought-after theatrical music supervisors. Jordan’s music supervision credits include some of the most successful film franchises in the world, including “Black Panther,” “Thor,” “Spider-Man,” “Guardians of the Galaxy,” “Iron Man,” “Marvel’s The Avengers,” “Transformers” and many more.

In 2001, Jordan founded Format Entertainment as a collaborative workplace for like-minded music supervisors to share ideas, experience and pool resources. The success of this model has allowed Format to grow and evolve into the largest collection of theatrical and television music supervisors working in the industry. Format’s
spectrum of clients consists of some of the most recognizable names in entertainment, media, advertising and consumer goods, including Marvel Studios, Warner Bros. Consumer Products, Mattel and marquee projects such as “Captain America: Civil War,” “Straight Outta Compton,” “Empire” and many Barbie and DC Super Hero Girls brand campaigns.

Format’s music supervision efforts have yielded several chart-topping albums, including No. 1 spots for the “Guardians of the Galaxy,” “Empire” and “Pitch Perfect” soundtracks, and just recently Format soundtracks occupied an unprecedented four of the top five positions on the Billboard charts. Format has won several Guild of Music Supervisors Awards, received multiple GRAMMY® and Emmy® nominations and twice won the American Music Award for best soundtrack (“Pitch Perfect” and “Alvin and the Chipmunks”).

Recognizing a void in the industry and an opportunity he could deliver against, Jordan incorporated an internal music creation business under the Format umbrella. This business is signing exciting new talent while remaining geared toward providing a seamless and efficient experience for the film, television and brand communities, resulting in major placements on shows such as “Better Call Saul,” “Girls” and “How to Get Away with Murder” and in campaigns for brands such as BMW, Procter & Gamble and McDonald’s.

Jordan and several members of the Format team serve on the board of governors for the GRAMMY® committee in Los Angeles, contributing to advocacy, education and human services programs to improve the cultural condition and quality of life for music and its makers.
